Below these is a 'Search For A Listing' form with a dropdown menu for 'Search By Category' currently set to 'Last Name', a text input field, and 'SEARCH' and 'CANCEL' buttons. A callout box points to the dropdown menu with the text: 'You can search by LAST NAME, FIRST NAME or DIAL CODE. Then click SEARCH and click the RED button to dial'. A virtual keyboard is visible at the bottom of the screen.

### Calling Scott (ipad) Knutsen

If the call is connected it will indicate it here. The call will disconnect automatically when the tenant opens the door.

## 6 USING THE APP FROM THE [PLAY STORE](#) OR THE [APP STORE](#)

The Webb Vision products have an app option which can be found on the  
PLAY STORE

[https://play.google.com/store/apps/details?id=com.webb.webb\\_video\\_flutter](https://play.google.com/store/apps/details?id=com.webb.webb_video_flutter)

or the

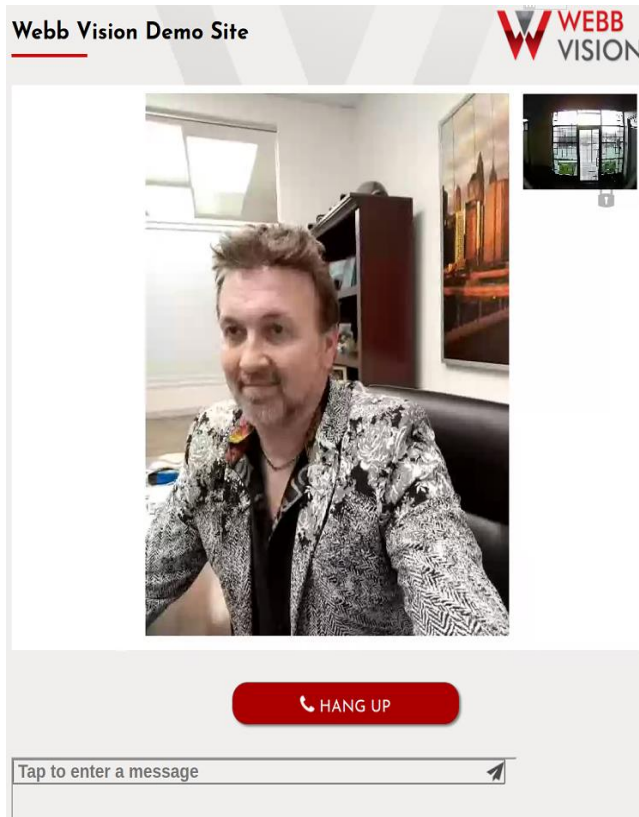

APP STORE

<https://apps.apple.com/ca/app/webb-entryphone/id1552302051>

(or search for Webb Entryphone).

The app is free, but the service is requiring your building subscribe to get the service. This allows the tenants to have to two-way audio-video with the entry phones in the building.
