INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Management
Breckenridge Mountain Metropolitan District
c/o Marchetti & Weaver LLC
28 Second Street, Suite 213
Edwards, CO 81632

Opinions

We have audited the accompanying financial statements of the governmental activities, and each major fund of the Breckenridge Mountain Metropolitan District (the District) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and each major fund of the District, as of December 31, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of

Breckenridge Mountain Metropolitan District
Page Two

not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the general fund budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Breckenridge Mountain Metropolitan District
Page Three

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The debt service fund budgetary comparison schedule is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the debt service fund budgetary comparison schedule is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the summary of assessed valuation, mill levy, and property tax collection but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Breckenridge Mountain Metropolitan District

Management's Discussion and Analysis December 31, 2021

As management of Breckenridge Mountain Metropolitan District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended December 31, 2021. This report also includes additional supplementary information after the notes to the financial statements.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also includes additional supplemental information presented after the notes to the financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all the District's assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The governmental activity of the District is primarily financing construction, operation, and maintenance of the basic public infrastructure that is performed by Alpine Metropolitan District. There are no business-type activities within the District.

The government-wide financial statements can be found on pages 7 and 8 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District currently has two funds, the General Fund and the Debt Service Fund, both of which are governmental funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Financial Statements can be found on pages 12 through 24 of this report.

Government-wide Financial Analysis. A condensed comparative summary of the District's government-wide assets, liabilities, net position, revenues and expenditures follows:

Statement of Net Position

	Governmental Activities	
	2021	2020
Assets and Deferred Outflows:		
Current assets	\$ 1,954,012	\$ 1,794,696
Noncurrent assets & deferred outflows	1,091,638	1,142,073

Interest and other revenue	6,712	6,671
Total Revenue	1,519,892	1,295,261
Expenses:		
General government	80,881	71,581
Intergovernmental agreement	124,341	351,045
Interest expense	962,422	971,423
Total Expenses	1,167,644	1,394,049
Change in Net Position	352,248	(98,788)
Net Position - Beginning	(21,816,161)	(21,717,373)
Net Position - Ending	\$ (21,463,913)	\$ (21,816,161)

The District is the “financing district” in a dual district structure whereby the District is financing the cost of constructing, operating and maintaining the infrastructure being built and operated by Alpine Metropolitan District (AMD). This infrastructure is being constructed to benefit the constituents of Breckenridge Mountain Metropolitan District (the District). The District entered into the District Facilities Construction and Service Agreement with AMD and pursuant to this agreement, AMD is obligated to construct and provide the initial financing for the primary infrastructure for the District area. The District is required to pay a “capital obligation” to reimburse AMD for the costs to construct the infrastructure. The District will also pay a “service obligation” to reimburse AMD for the operating costs associated with administering and maintaining the assets. The District uses funds received from current and future property taxes and bond issuances to repay these obligations. The District has issued bonds to independent third parties and utilized the bond proceeds in fulfillment of its Capital Obligation to AMD and the District has advance funded its Service Obligation to AMD.

The District's main revenue source is property taxes collected. These revenues have been used to pay debt service and intergovernmental agreement expenses of the District.

Financial Analysis of the District's Funds

As mentioned earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$1,241,851 which reflects an increase of \$41,393 during 2021. This increase is primarily due to unspent contingencies in the funds.

Long-term debt and hedging activities.

In September 2016, the District issued \$21,185,000 in general obligation refunding and improvement bonds for the purpose of refunding the 2006 general obligation bonds, paying off the 2008 and 2008A notes, funding termination fees associated with the swap agreements and to fund infrastructure projects completed in December 2020. The outstanding balance of these bonds at December 31, 2021 is \$20,080,000.

In September 2020, the District issued \$2,725,000 in general obligation refunding bonds for the purpose of refunding the 2010 general obligation bonds. The outstanding balance of these bonds at December 31, 2021 is \$2,475,000.

Additional information can be found in Note D to the Financial Statements beginning on page 19 of this report.

Request for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Marchetti & Weaver LLC., 28 2nd St Unit 213, Edwards, CO 81632 or you may call (970) 926-6060.

Reconciliation to the Statement of Net Position

Total Fund Balance \$ 1,241,851

Amounts reported for governmental activities in the Statement of Net Position are different because:

Other long-term assets such as prepaid bond insurance are not current financial resources and, therefore, are not reported in the governmental funds balance sheet 207,426

Loss on bond refunding are reported as financing sources and uses in the governmental fund financial statements, but are not reported as deferred outflows of resources on the government-wide statement of net position 448,388

Accrued interest payable on outstanding bonds do not require current financial resources, and therefore are not reported in the governmental funds. (61,476)

Long-term liabilities such as bonds payable, are not due and payable in the current period and therefore, are not reported in the governmental funds. (23,300,102)

Total Net Position **\$ (21,463,913)**

The accompanying notes are an integral part of these financial statements.

Breckenridge Mountain Metropolitan District

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCE - GOVERNMENTAL FUNDS - TO THE
STATEMENT OF ACTIVITIES

For the year ended December 31, 2021

Total net change in fund balance - governmental funds	\$ (41,393)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Amortization of bond premiums does not provide financial resources. This is the amount of amortized bond premium that decreased interest expense.	31,046
Amortization of deferred losses and insurance cost does not provide financial resources. This is the amount of amortized deferred costs that increased interest expense for 2021.	(233,893)
The repayment of principal on long-term debt consumes the current financial resources of governmental fund, but does not have an effect on net position. This is the amount of the general obligation bond and loan principal payments.	595,000
Some expenses reported in the Statement of Activities, such as accrued interest on debt, do not require the use of current financial resources, and therefore are not reported in the governmental funds.	<u>1,488</u>
Change in net position of governmental activities	<u><u>\$ 352,248</u></u>

The accompanying notes are an integral part of these financial statements.

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

NOTE A – DEFINITION OF REPORTING ENTITY

The District, a quasi-municipal corporation and political subdivision of the State of Colorado, was organized on November 27, 2002, and is governed pursuant to provisions of the Colorado Special District Act. The District's service area is located in Summit County, Colorado. The District was established as part of a dual district structure with the Alpine Metropolitan District. The District is considered the financing district and was established to provide funding and tax base for capital improvements that will benefit the District. The capital improvements are owned and maintained by Alpine Metropolitan District (AMD), the Service District (see Note F).

The District has no employees and all services are contracted.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations, and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies of the District are as follows:

Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government. The Statement of Net Position presents the financial position of the governmental activities at the end of the year. The Statement of Activities presents a comparison between program expenses and the program revenue for each program or function of the District's governmental activities. Program expenses are those that are specifically

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Basis of Presentation (continued)

associated with a service program, or department; and therefore, clearly identifiable to a particular function. Program revenue includes charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenue which is not classified as program revenue is presented as general revenue of the District, with certain limited exceptions. The comparison of program expenses with program revenue identifies the extent to which each governmental function is self-financing or draws from the general revenue of the District.

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds.

Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. Fund types used by the District are described below.

Government Fund Types

General Fund – the General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund – the Debt Service Fund is used to account for all financial resources for the payment of principal, interest, and costs related to long-term obligations.

Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the District are included in the Statement of Net position

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Measurement Focus (continued)

balance sheet. The Statement of Revenue, Expenditures, and Changes in Fund Balances reports on the sources (revenue and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore includes reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of unavailable revenue, and in the presentation of expenses versus expenditures.

Revenues

Revenue resulting from exchange transactions, in which each party gives and receives essentially the same value, is recorded on the accrual basis, when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are both measurable and available to finance expenditures of the fiscal period, which is typically within sixty days of realization.

Non-exchange transactions, in which the District receives value without directly giving value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are received. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on the use of financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Budgets

In accordance with Colorado Local Government Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year-end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements.

The budget includes each fund on its basis of accounting unless otherwise indicated. Encumbrance accounting (open purchase orders, contracts in process and other commitments for the expenditures of funds in future periods) is not used by the District for budget or financial reporting purposes.

Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, investment pools and short-term investments with an original maturity of three months or less from the date of acquisition.

Restricted Cash & Cash Equivalents

Unspent bond proceeds are reflected as restricted cash and cash equivalents in the accompanying financial statements.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligation of the funds.

The District is obligated under the District Facilities Construction and Service Agreement (see Note F) to reimburse AMD over time for the cost of infrastructure and operating costs. Unpaid amounts under this agreement are reflected as noncurrent liabilities and prepayments are recorded as non-current assets in the financial statements.

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Deferred Outflows/Inflows or Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The loss related to the refunding of District debt falls in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item that qualifies for reporting in this category, deferred revenues from property taxes, for which there is an enforceable legal claim as of December 31, 2020, but which were levied to finance year 2021. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Net Position

In the government-wide financial statements, net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net Position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District, or through external restrictions imposed by creditors, grantors, or laws, or regulations of other governments.

The District applies restricted resources first when an expense is incurred for the purpose for which both restricted and unrestricted net position are available.

Fund Balances

In the fund financial statements the following classifications describe the relative strength of the spending constraints.

Non-spendable fund balance – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid expenses) or it is legally or contractually required to be maintained intact. The District’s non-spendable fund balance relates to prepaid obligations to AMD.

Restricted fund balance – The portion of fund balance constrained to being used for a specific purpose by external parties (such as grantors or bondholders), constitutional provisions or enabling legislation. The District’s restricted fund balance represent amounts reserved for emergencies under the Colorado State

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Fund Balances (continued)

Restricted Fund Balance – Continued - Constitution. A restriction of \$318 of the General Fund's fund balance has been made in compliance with this requirement. The District's restricted fund balance also includes amounts restricted for capital expenditures and debt service payments.

Committed fund balance – The portion of fund balance constrained for specific purposes according to limitations imposed by the Board of Directors prior to the end of the fiscal year. The constraint may be removed or changed only through formal action of the Board of Directors. The District has no committed fund balance.

Assigned fund balance – The portion of fund balance set aside for planned or intended purposes. The intended use may be expressed by the Board of Directors or other individuals authorized to assign funds to be used for a specific purpose. This classification is necessary to indicate that those funds are, at a minimum, intended to be used for the purpose of that particular fund. The District has no assigned fund balance.

Unassigned fund balance – The residual portion of fund balance that does not meet any of the above criteria. The District will only report a positive unassigned fund balance in the General Fund.

If both restricted and unrestricted amounts of fund balance are available for use when expenditure is made, it is the District's policy to use restricted amounts first. Unrestricted fund balance will be used in the following order: committed, assigned, and then unassigned.

Property Tax

Property taxes are levied by the District Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayers' election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are normally held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Estimates (continued)

amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTE C – CASH AND INVESTMENTS

Deposits

At December 31, 2021, the District had no cash deposits.

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to the aggregate uninsured deposits. The State Regulatory Commissions for banks and financial services are required by Statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

Investments

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- Obligations of the United States and certain United States government agency securities
- General obligation and revenue bonds of United States local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

As of December 31, 2021, the District had invested \$433,337 in the Colorado Surplus Asset Fund Trust (CSAFE), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a 2a-7-like money market fund and each share is equal in value to \$1.00.

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

NOTE C – CASH AND INVESTMENTS – CONTINUED

Investments (continued)

CSAFE is rated AAAM by the Standard & Poor’s Corporation. A designated custodial bank serves as custodian for the Trust’s portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust’s investment portfolios and provides services as depository in connection with direct investment and withdrawals. The custodian’s internal records segregate investments owned by the Trust. Investments in CSAFE are stated as amortized cost which approximates fair value. At this time, the District does not hold investments carried at fair value as defined by GASB 72.

NOTE D - LONG-TERM LIABILITIES

The following is an analysis of the changes in long-term obligations of the District for the year ended December 31, 2021:

	Balance January 1 2021	Additions	Retirements	Balance December 31 2021	Current	Long-Term
Governmental Activities						
General Obligation Debt						
Series 2016 General Obligation Bonds	\$ 20,425,000	\$ -	\$ (345,000)	\$ 20,080,000	\$ 450,000	\$ 19,630,000
Series 2020 General Obligation Refunding Bonds	2,725,000		(250,000)	2,475,000	165,000	2,310,000
Premium 2016	583,323	-	(23,333)	559,990	23,333	536,657
Premium 2020	192,825	-	(7,713)	185,112	7,713	177,399
Total	\$ 23,926,148	\$ -	\$ (626,046)	\$ 23,300,102	\$ 646,046	\$ 22,654,056

Series 2016 General Obligation Refunding and Improvement Bonds

On October 5, 2016, the District issued general obligation refunding and improvement bonds totaling \$21,185,000. The bonds mature at various dates through December 1, 2045, and bear interest at annual rates ranging from 2.00% to 4.00%. Proceeds from the issuance totaling \$11,685,000 plus available bond reserve funds were used to repay the 2006 general obligation bonds, repay the 2008 variable rate tax-exempt loans, fund the early termination fees of \$1,000,250 related to the 2008 and 2008A swap agreements, and to pay costs of issuance. The remaining proceeds of \$9.5 million were being used to finance the design, acquisition, construction, relocation, installation and completion of certain public infrastructure costs incurred by Alpine Metropolitan District and authorized by the District. The Bonds are comprised of both serial and term bonds, with the serial bonds maturing annually from December 1, 2017 through December 1, 2031 and the term bonds maturing at various dates from December 1, 2036 to December 1,

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

NOTE D - LONG-TERM LIABILITIES - CONTINUED

2045. Bonds maturing on December 1, 2027 and thereafter are subject to redemption prior to maturity, at the option of the District, in whole or partial maturities, at any time on or after on December 1, 2026, without redemption premium. The term bonds maturing on and after December 1, 2036 are subject to mandatory sinking fund redemption, in part, by lot, on December 1, 2032, and on each December 1 thereafter.

The refunding portion of the above issuance increases total debt service payments over the next 30 years by \$5,441,619 resulting in an economic loss (difference between the present values of the debt service payments of the old and new debt) of \$633,330. The debt service requirements of the refunded debt had balloon payments in 2020 through 2024 that the District would have been required to refinance at that time which may have resulted in potentially higher interest rates and future debt service payments. Additionally, by refinancing these bonds in 2016 the District was able to lock in historically low interest rates and ensure a relatively low mill levy rate throughout the life of the bonds.

The future debt service requirements of the 2016 bonds are set forth below:

Year Ending December 31,	Principal	Interest	Total
2022	450,000	664,858	1,114,858
2023	475,000	651,088	1,126,088
2024	495,000	636,838	1,131,838
2025	510,000	617,038	1,127,038
2026	545,000	596,638	1,141,638
2027-2031	3,500,000	2,622,988	6,122,988
2032-2036	4,755,000	1,888,588	6,643,588
2037-2041	4,875,000	1,165,625	6,040,625
2042-2045	4,475,000	354,688	4,829,688
	<u>\$ 20,080,000</u>	<u>\$ 9,198,346</u>	<u>\$ 29,278,346</u>

Series 2020 General Obligation Refunding Bonds

On September 2, 2020, the District issued general obligation refunding bonds totaling \$2,725,000. The bonds mature at various dates through December 1, 2045, and bear interest at annual rates from 2.5% to 3.00%. Proceeds from the issuance totaling \$2,917,825 plus available bond reserve funds were used to repay the 2010 general obligation bonds, and to pay costs of issuance. The Bonds are comprised of both serial and term bonds, with the serial bonds maturing annually from December 1, 2021 through December 1, 2030 and the term bonds maturing at various dates from December 1, 2037 to December 1, 2045. Bonds

NOTE D - LONG-TERM LIABILITIES - CONTINUED

maturing on December 1, 2031 and thereafter are subject to redemption prior to maturity, at the option of the District, in whole or partial maturities, at any time on or after on December 1, 2026, without redemption premium. The term bonds maturing on and after December 1, 2037 are subject to mandatory sinking fund redemption, in part, by lot, on December 1, 2037, and on each December 1 thereafter.

The refunding portion of the above issuance decreases total debt service payments over the next 25 years by \$783,455 resulting in an economic loss (difference between the present values of the debt service payments of the old and new debt) of \$605,707. The debt service requirements of the refunded debt had a balloon payment in 2039 that the District would have been required to refinance at that time which may have resulted in potentially higher interest rates and future debt service payments. Additionally, by refinancing these bonds in 2020 the District was able to lock in lower interest rates and ensure a relatively low mill levy rate throughout the life of the bonds.

The future debt service requirements of the 2020 bonds are set forth below:

Year Ending December 31,	Principal	Interest	Total
2022	165,000	73,125	238,125
2023	160,000	68,175	228,175
2024	160,000	63,375	223,375
2025	165,000	58,575	223,575
2026	160,000	53,625	213,625
2027-2031	435,000	205,425	640,425
2032-2036	110,000	179,000	289,000
2037-2041	585,000	133,400	718,400
2042-2045	535,000	40,950	575,950
	<u>\$ 2,475,000</u>	<u>\$ 875,650</u>	<u>\$ 3,350,650</u>

Authorized Debt

At December 31, 2021, the District had authorized but unissued general obligation debt for the following improvement purposes:

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

NOTE D - LONG-TERM LIABILITIES - CONTINUED

Transportation	\$28,065,177
Streets and roadways	-
Operations and maintenance	12,000,000
Parks and recreation	599,235
Storm and sanitary sewer	302,463
Traffic and safety	867,435
	<u>\$41,834,310</u>

Under C.R.S. 32-1-1101(2) voter authorization expires 20 years after the date of the election when the voters authorized the debt. The District's debt was authorized by voters on November 5, 2002 and, per statute, will expire in November 2022.

NOTE E – RELATED PARTIES

A majority of the members of the Board of Directors of the District are employees of Vail Resorts Development Co., Vail Resorts Management Co., or related entities.

NOTE F – AGREEMENTS WITH OTHER GOVERNMENTAL ENTITIES

Breckenridge Mountain Metropolitan District (the District) has entered into a District Facilities Construction and Service Agreement with Alpine Metropolitan District (AMD). The District is considered the financing district and AMD the service district under the agreement. On November 24, 2008 the District entered into an "Amended and Restated First Amendment to District Facilities Construction and Service Agreement" to accommodate the issuance of two tax exempt loans by the District.

The primary purpose and function of a financing district is to provide funding and the necessary tax base for financing the construction, operation, and maintenance of the public improvements within another district generally referred to as a service district.

Under this agreement, the District is to provide funding and the necessary tax base for financing the construction, operation, and maintenance of the public improvements that benefit both of the districts. The District may also obtain financing for the construction of the public improvements and pay the proceeds to the AMD.

AMD will manage the construction and operation of the public improvements, and own, operate, and maintain the public improvements pursuant to a long-term operations and maintenance program.

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

NOTE F – AGREEMENTS WITH OTHER GOVERNMENTAL ENTITIES – CONTINUED

The District is required to pay to AMD a portion of the revenue raised from mill levies to offset the operating expenses incurred by AMD for provision of services to property within the District. In 2021, the District funded operating expenditures of AMD totaling \$98,572.

The District is also required to assign a portion of revenue raised from all sources to AMD in order to offset the costs of the construction of the public improvements and the District's costs of operation and maintenance of such public improvements. The Agreement remains in force until all terms and conditions have been performed in their entirety. In 2021, the District funded public improvements by AMD totaling \$25,769.

In addition, at December 31, 2021, \$884,212 has been paid from the District to AMD representing prepayments pursuant to the agreement that AMD is holding to offset future capital and operating expenditures.

NOTE G – RISK MANAGEMENT

Except as provided in the Colorado Governmental Immunity Act, Section 24-10-101. et seq., CRS, the District may be exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool) as of December 31, 2021. The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery, and workers compensation coverage to its members. Settled claims have not exceeded coverage in the past three years.

The District pays annual premiums to the Pool for liability, property, and public officials' coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE H – TAX, SPENDING AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments. Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

Breckenridge Mountain Metropolitan District

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

NOTE H – TAX, SPENDING AND DEBT LIMITATIONS – CONTINUED

TABOR requires local governments to establish emergency reserves. These reserves must be at least 3% of Fiscal Year Spending, excluding bonded debt service. Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

On November 5, 2002, a majority of the District's electors authorized the District (1) to increase taxes up to \$2,250,000 annually by the imposition of an ad valorem property tax levy and (2) to collect, keep and expend all District revenue during 2002, and continuing thereafter without regard to limitations under TABOR.

Breckenridge Mountain Metropolitan District

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2021

RSI NOTE A – BUDGETARY INFORMATION

Budgets for major governmental funds are adopted on the modified accrual basis where capital and service obligations are recorded on the cash basis, and payments on long term debt are treated as expenditures. The operating budget includes proposed expenditures and the means of financing them. The Board of Directors must approve transfers between funds, or increases to a fund's budget. See Note B for additional information on the District's budget process.

RSI NOTE B – EXPENDITURES/EXPENSES IN EXCESS OF APPROPRIATION

State Statute requires that expenditures and transfers for a fund cannot exceed the appropriations for that fund. Appropriations for a fund may be increased provided unanticipated resources offset them.

The budget is controlled at the departmental level within each fund. However, the legal level of appropriation is within the fund. In 2021, the District did not have any budget violations.
