ABOUT USYF

U.S. Youth Futsal, a U.S. Soccer member, is the largest and fastest-growing futsal organization in the United States, overseeing more than 100 local leagues in 30 states across the country.

Our mission is to develop players, coaches, and officials to compete at the highest levels of futsal and soccer in the world.

In addition to hosting leagues around the country, U.S. Youth Futsal offers the following programs to enhance the level and passion for the game for all its members.

Founded: 1994
Official Member of U.S. Soccer
51,795 Youth Players
100+ Leagues
30 States
10 Regional Championships
1 National Championships
8 National Teams

USYouthFutsal.com

U.S. Youth Futsal is committed to the growth and development of youth futsal in the United States.

What The USYF Provides

USYF Academy

Offers players a unique opportunity to develop and compete year-round alongside similarly skilled players from other clubs, improving players' ability in both soccer and futsal.

Futsal I.D.

Gathers players from around the country for regional identification camps, with the best moving on to national camps and the very best selected for youth international teams.

International Teams

U.S. Youth Futsal National Teams are selected via the Futsal I.D. program. Each team is comprised of the very best futsal players in the entire country.

Leagues

Most of the largest youth Futsal leagues in the United States are affiliated with U.S. Youth Futsal. Several of the USYF leagues are directed by former futsal players including Keith Tozer, Jon Parry and Otto Orf, who have played with the US National Futsal Team.

619Futsal is focused on bringing youth players a fun, exciting and safe place to become better soccer players.

What The 619Futsal Academy Provides

619Futsal Academy

The 619Futsal Academy is a premier futsal development program that offers players a unique opportunity to train and compete with players from other soccer clubs that are at the same skill level.

619Futsal Developmental Academy

The 619Futsal Developmental Academy was formed to introduce our local youth soccer players the opportunity to gain an accelerated soccer foundation and technical base at the ages of 6-9 years old. The DA is the first step of our futsal curriculum that focus on touches on the ball in a safe, fun environment that promotes loving the game of soccer.

ABOUT 619FUTSAL

619Futsal is focused on bringing youth players a fun, exciting, and safe place to explore their talents to become better soccer players.

We have been focused on the development of local youth soccer players through our leagues, camps, clinics and our 619Futsal Academy.

619Futsal is committed to maintaining its independence and objectivity in the formation of our Academy teams. We are NOT a club and have no soccer club affiliation.

Although we utilize the support and cooperation of soccer coaches from many neighboring soccer programs, we have a strict “no recruiting policy.” 619Futsal wants to produce a positive environment where each player can be their best.

In addition, our independence and objectivity are reflected in the fact that we strive to provide an equal and unbiased opportunity for all players in our “open I.D process.”

619FUTSAL HISTORY

The Leader Of Futsal In San Diego County

619Futsal, established in 2011 by Sean Bowers and Mike Gentry, is the largest futsal league in San Diego. Drawing players from all regions of the County, 619Futsal started the futsal revolution in Southern California and continues to be the leader of the sport in the region.

We provide a forum for players to learn the game of futsal in a non-competitive environment. Our focus is on player development, skills, and teamwork; not trophies! Over 2,000 players participate in our youth leagues annually.

In June 2018, 619Futsal was awarded USYF Academy status and is the only USYF Sanctioned Futsal Academy in Southern California. Since its inception, the Academy has served over 300 youth players.

619Futsal Academy Annual Highlights

- In the past two years, over 200 players have attended the USYF Regional I.D. Camp hosted by the Academy
- Over 50 Academy players have joined the USYF National Teams for training and tours of foreign countries
- Hosted the annual USYF Southwest Regional Tournament

In the years to come, 619Futsal will continue to provide young futsal players with quality coaching and innovative programming to help them reach their soccer goals.

BENEFITS OF FUTSAL

A Training Program For Improvement

We offer a balanced training program that is designed to teach youthful soccer players fundamental ball-handling skills. At the same time, our Futsal training program is focused on improving a player's overall technical development. Many of the skills and proficiencies are transferable to the 11-a-side game.

The nature of Futsal, with the smaller confines of the pitch, makes it harder to find space and more difficult to escape from tight situations (unlike traditional 5-a-side, where players can play the ball off the wall) Also, the smaller heavier ball encourages players to develop strong ball control and passing techniques.

Research indicates that individual's playing Futsal receive the ball six times more often than they would do when they are playing 11-a-side football, allowing players to perform more individual techniques such as passes, controls, fakes, feints, dribbles and runs with the ball (Liverpool John Moores University, 2001). As well as touching the ball more often, players will often receive the ball under pressure from opponents developing their confidence on the ball particularly in pressurized environments.

The game of Futsal frequently brings players into one-on-one situations with their opponent. This encourages quick decision making and helps to develop skills in ball handling, passing and team play.

Futsal teaches young players the importance of ball retention, being confident on the ball, and receiving a pass under pressure, which are all important fundamental skills that we look to develop in young football players that are practiced regularly within a game environment in Futsal.

BENEFITS OF FUTSAL

Futsal Emphasizes On Skill & Technique

Futsal also supports young player development in other ways. The speed and fluidity of the game supports players in understanding and improving their skills in the transition (counterattacking) phase.

In Futsal, teams are often either defending a counter-attack or in the process of launching one after breaking down their opponents. This is recognized in modern football as a vital component for young players to understand and apply. The ebb and flow of the game also results in all players being required to feel confident in both defending and attacking situations.

Due to the limited space on a Futsal court, the game intrinsically encourages movement and rotation from players as well as a sense of innovation and creativity to unlock defenses and to create some space for yourself or teammates. In many ways, it replicates what is required from attacking midfielders and forwards in the 11-a-side game when trying to break through opposition in and around the 18-yard box.

The emphasis in Futsal is developing skill and technique over physicality, and this is particularly reinforced by the 5-foul rule (committing 6 fouls results in a penalty). At the same time, Futsal is also fun for young players who get to touch the ball with greater frequency in a variety of different positions.

The fact that it is played indoors means that it is a perfect alternative in the winter months when outdoor matches are regularly canceled due to inclement weather.

Futsal is a means for developing a more technically competent soccer player. As illustrated above Futsal can play a important supportive role in improving the technical qualities of the future generation of 11-a-side players.

USYF ACADEMY PROGRAM

A New Era In Youth Player Development

A new era for Futsal in the USA began in the Spring of 2018 as US Youth Futsal (USYF) announced the launch of its new Academy program.

The US Youth Futsal Academy program will powerfully impact and improve youth player development in the United States.

"We are thrilled to launch the US Youth Futsal Academy," said Jon Parry, Executive Director of US Youth Futsal. "We believe this is an important step towards developing world-class players in America. We are proud that many of the country's top former futsal national team players are now USYF Academy Directors."

Setting the standard for elite futsal training and competition in the USA, US Youth Futsal's Nationwide Academy program will improve player development by providing high quality and consistent futsal training environments, meaningful futsal competition, and coaching education.

"The goal is to produce players of exceptional ability in both soccer and futsal," said Joe Farrell, USYF Academy Executive Board and Executive Director & Co-Founder, FutsalRVA. "The USYF Academy is designed for players who want to participate in high-level technical and tactical futsal training and competition. The Academy structure will complement - not compete with - a player's club training in order to optimize schedules and maximize development."

The Futsal Academy offers players a unique opportunity to develop and compete in a year-round futsal centric environment alongside other dedicated and skilled players from a variety of youth soccer clubs.

"Futsal is paramount for player development in the USA," said Greg Simmonds, USYF Academy Executive Board and President, FutsalRVA. "The USYF Academy Program will provide environments where players are afforded opportunities to play and receive exposure on local, regional and national platforms."

DEVELOPMENTAL ACADEMY PROGRAM

BIRTH YEAR: 2012-2015 / U6-U9

Registration Fee: \$75

Monthly Fee: \$80

The First Step To Achieving Soccer Success

As you know, Futsal is a great skill developer as it demands quick reflexes, fast thinking, and pin-point passing. The small, heavier futsal ball requires players to hone their ball-striking and dribbling technique. Great soccer superstars such as Pele, Zico, Ronaldo, Messi, Kaka, and Katia grew up playing the game and credit Futsal with developing their skills.

619Futsal Developmental Academy is very excited to continue to enhance our players' technical proficiency, tactical understanding in small group settings, decision making in a fast-paced environment, and ability to make quick key adjustments throughout the course of a game.

619Futsal Developmental Academy (619DA) was formed to introduce our local youth soccer players the opportunity to gain an accelerated soccer foundation and technical base at the ages of 6-9 years old. The 619DA is the first step of our futsal curriculum that focus on touches on the ball in a safe, fun environment that promotes loving the game of soccer.

Developmental Academy players always have a ball at their feet meaning more touches, more experience, and more fun!

619Futsal Developmental Academy is open to ANY/ALL players and teams, regardless of their club affiliation, or level of play.

- Approximately 12-15 training sessions per year with qualified staff
- Two 90-minute training sessions per month on Sundays for nine months
- Specialized goalkeeping training
- Opportunity for participation in Regional and National ID Camps
- Two training tops, sweatshirt, and a 619Futsal Academy drawstring bag included
- 100% support to all clubs in San Diego
