Total	135

Switching from a Daily Update to Weekly Update

We are happy to announce, to date, Lassen County has not have any known cases of COVID-19 (novel coronavirus). The Incident Commanders and the Public Health Officer are responding in portion to the public health need. Therefore, the Public Information Team will be moving from daily updates to weekly updates in the form of two newsletters.

What will be Included in the New Format?

The Weekly Updates will be provided in the form of a newsletter. Each edition will provide:

1. The most up-to-date COVID-19 counts for the day they are posted
2. Any updates that did not merit an immediate press release
3. Resources
4. Answers to frequently asked questions

LASSEN COUNTY RECOVERY PLAN

Getting Approved by the State

Lassen County Roadmap to Recovery:

Recovery Plan Created

The Lassen County Incident Command created a Roadmap to Recovery Plan to reopen the county. The Board of Supervisors approved the plan on May 1st, 2020.

Letter to the Governor and the State Public Health Officer Sent

The County and the Public Health Officer, Dr. Kenneth Korver, sent a letter to the

Governor and the State Public Health Officer seeking approval to use the plan to safely reopen business.

Governor and State Public Health Officer's Approval

Without the approval of the Governor and State Public Health Officer, Lassen County officials do not have the authority to lift the Stay-at-Home order without the permission of the Governor and State Public Health Officer.

Put the Plan to Work

The County is ready to implement the Roadmap to Recovery Plan as soon as it is approved. The Roadmap includes guidances and new safety practices for close contact businesses.

Get Lassen County to a New Normal

The plan will create a new set of guidelines and a new framework for businesses to follow until a vaccine is created or the Stay-at-Home order is lifted by the Governor.

Mass Testing in Lassen County:

Lassen County will be conducting mass testing at the Lassen Community College before the end of the month. We secured 16,000 tests from the State. We plan to use our mobile flu clinic unit that we train for each year.

More information will be in the next weekday edition.

Note: This is not antibody testing

Lassen County Roadmap
to Recovery

Frequently Asked Questions:

Q: What is the Focus of the Roadmap to Recovery?

A: The Recovery Plan for reopening Lassen County addressed Governor Newsom's six indicators for a roadmap to recovery. From the state roadmap, the Incident Command team created a plan for Lassen County. The plan focuses on protecting high risk residents, supporting businesses, schools, and childcare, in addition to addressing a plan for action in the event of a surge in COVID-19 (novel coronavirus) cases.

Q: When will businesses reopen?

A: It is important that these businesses understand the process that needs to be followed in order to continue to keep our county safe. For business owners with a desire to reopen their establishments, the Incident Command team is asking for the business owners to complete a thirty question survey found at:

<https://www.surveymonkey.com/r/lcreopening>.

Resources Page:

Exposure Reduction Survey for Businesses:

Lassen County Officials are working to reopen businesses and need information from entities that serve or interface with the public to determine if they are able to operate safely under California Public Health guidelines.

Survey Link:
