

# First Lady's Project

First Lady's project is a sensory playground with musical instruments as music calms the soul!! Our directors of Texas Elks Childrens Camp need an area that is separated from the other playground where children that are a little overstimulated/agitated can be taken to calm down. This playground will be positioned between the playfield and the newly proposed pool (which has been funded!! YEAH!!) behind the building visible from the director's office. Below is an artist rendition of proposed playground. We can and will pick coordinating colors as all surfaces are customizable, but this gives everyone an idea of what we're thinking of. You can see the musical instruments in the foreground and ours will have more. It does have the glide rocker in this drawing, and we would add the "cocoon" for calming. Slides will be the ones we choose. The climbing geometric cubes help with calming as well as the kids can sit in them and feel safe, but care givers still have access to them and can still talk to them. I've also attached some specific pieces of playground equipment. If a District, individual, or business would like to sponsor one of the pieces of equipment we'll provide a tax receipt as well as a plaque will be placed on or near the piece of equipment noting the generous donation!! Have an extra spaghetti night, burger burn or even fifty/fifty at a larger event and donate it to the First Ladies project! Send the check to the camp and just note on the check it is for the First Ladies Project. If you are purchasing a particular piece of equipment note that and we'll have the plaques done and receipts sent to you ASAP!! We are looking into grants and matching donations. If your employer does that please let us know and we'll gladly fill out any applications or forms necessary to get OPM (other peoples money!!)

**Bell Panel \$2500**

**Xylophone Cloud  
\$2,698.00**

**Horns!! \$2500**

**Chime Panel \$2500**

**We have Good, Better and Best on this page, depending on what we can afford.**

**Sensory Play Drum Set \$2000**

**If we raise more we'll get this!  
Quartet \$6700**

**Rhythm Wall \$11,000**

**If we hit it out of the ballpark, we could get this!!!!!!!**

**Cozy Cocoon \$3900** (this is a calming area for children with Autism or children in emotional distress.)

This helps calming with a rocking motion. Large enough for older kids and can accommodate wheelchairs.  
**\$10,000** (this would be a great add on later, maybe reserve an area if we can't afford at first.)

**Chimes size 3' 6" x 2' 1" x 5' 8" \$5700**

**Concerto**  
**Large Cabasa**  
**Ages: 2-**  
**\$1,401**  
**12yrs**

**Concerto**  
**Two Congas**  
**Ages: 2-12yrs**  
**\$2,051**

**We need two types of slides, one plastic and one stainless steel. Children with cochlear implants can't do plastic slides due to the static it creates.**

Slides  
**360° Stainless Steel Spiral Slide**

Product: ZZCH2714

**Bumpy slide helps build multi-sensory awareness. Canopy encourages seated sliding. Runout features molded-in grooves. From 5' (1,52m) decks. Freestanding version features Eco-Armor™ coated, perforated-steel stairs and deck.**
