## The Editors Corner:

**Dave Puthoff**

We will soon have our annual Pot Luck Digital Photo Show and Food Fest, but at a different location from past years — at the Dunham Recreation Center in Western Hills.

So dig out some of your favorite electronic railroad photos, and bring them to share at our December meeting.

Are you busy doing projects on your layout during our COVID19 staycation? Email your Photos and/or Descriptions to [editor@cincy-div7.org](mailto:editor@cincy-div7.org).

If you have a photo, or a useful tip, or maybe just a useful website that you would like to share, the Oilcan is an opportunity to share it with your fellow model railroaders. Email it to [editor@cincy-div7.org](mailto:editor@cincy-div7.org).

*Dave*

2

We had our November monthly meeting, in-person and on-line, on Sunday November 14<sup>th</sup> at the Erlanger Library in a new room in back that really met our needs for including the A/V set up. The clinician for this meeting was Roy Hord, who took us railfanning to the N&W Pocahontas Division in southern West Virginia. This used to be the heart of coal country and it was interesting to see what is still present and hear about what has changed. Somehow, it is always surprising to see large concrete coaling towers still standing in major rail yards. I know it costs too much to tear them down, so it makes sense they survive, but it is still jarring to see modern diesels pulling stack trains past these structures. If I modeled any period later than my actual late '50s target, I would certainly consider having one of these survivors on my layout. Walthers has the kits!

The final results on the Fall Train Show were presented and showed that we had attendance comparable to pre-covid shows and that meant we covered our expenses and helped with the on-going funding of our activities. Now we look forward to the Flea Market in March.

Our next meeting will be our standard pot luck "slide" show and snack fest. Historically this has been at the Westwood United Methodist Church. We will still be in Western Hills, but we have a new venue this year, thanks to the efforts of our Assistant Super and program chair Chuck Endreola (with assistance from Tony Valerius). We will meet at the Dunham Recreation Center, just off Queen City and Sunset. See Chuck's article and the map in this Oil Can for more details on how to get there. For any of us (Mike Brestel) who have railfanned the C&O line from CUT up to Cheviot Yard, this location will bring back memories in that area.

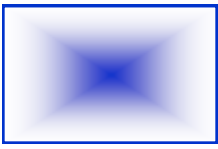

I also want to highlight that with the return of in-person meetings, we are once again able to have our always honest raffle (I get paid to say that). We had a new member attending their first meeting in November and he was a winner in the raffle! My guess is he will be back. On the other hand, I failed to win (again). I am asking Bruce to investigate. If you missed the November meeting, you will want to make sure you come to the December meeting because Russ has also brought back our usual Fall engine raffle. Ticket sales started at the November meeting, but plenty will still be available at the December meeting and the drawing will be a highlight of the December meeting.

And while I am on the subject, remember that the video library and the company store are back as well. Of course the contest is also back to help motivate us by showing what our fellow members have created, or photographed. I am very glad that we are serving our members who cannot attend in person; but these in-person meetings continue to provide an extra benefit to those who can come.

I will add one more comment to the above. The layouts that were available for viewing after the meeting were both ones that we had not toured before. In fact, Larry Goodridge actually had FIVE layouts in his house, including what I think is our first Z Scale layout. Dave should have pictures from both venues in this issue.

I hope to see a lot of you in-person (or on *Zoom*) at the December meeting at Dunham on December 12<sup>th</sup>; and remember to bring your pictures and videos (on a flash drive) to share with all of us.

*John*

I must offer apologies to Bo Sis and the members who attended November's meeting at the Kenton County Library in Erlanger. First, to Bo Sis for misspelling his name on the layout map handout. Only I could misspell a three-letter word! Second, I apologize for not posting signs directing members to the new meeting room.

I'd like to thank Roy Hord for his presenting his informative clinic on "The Norfolk Southern Pocahontas Division". We paid our first layout visits to the homes of Bo Sis and new NMRA member Larry Goodridge. Larry, a veteran O-Gauger, has a permanent "high-rail" layout featuring several industries in his basement. He also has built several portable layouts, a western themed O-Gauge, two new ones in HO, plus a new Z scale pike. The latest HO layout was at our October show. The theme is WWII in France with many American military scenes and details. Bo's large fully scenicked HO layout is based on the PRR in Western Pa. It has open staging and many nice structures including an imposing steel mill. Lou Sassi will be photographing it for a future article in Model Railroader magazine.

As I mentioned at November's meeting, many of our past meeting venues are now unavailable to us for assorted reasons. I've been on a three-month quest to secure replacements. Next month will be the first of six new locations. Our December "Electronic Slide Show and Snack Fest", will be held at the Dunham Recreation Center in Western Hills. A large map has been included in this issue of the Oil Can. To help direct you, I WILL have directional signs posted, as long as the ground isn't frozen. Upon entering the Center, take the first road to the right, followed by another right at the very next road. The main building will be on your right. Drive past the front of that building to a driveway around and behind its left side. It will take you down grade to a large parking lot. You will enter directly into the meeting room, through the door facing the lot, in the rear wing of the main building. Because of Covid-19 concerns, "open" food trays will not be provided. All snacks will be individually packaged. Canned soft drinks and bottled water will be available. Please keep the area free of food crumbs so we will not be charged a fee for cleanup.

The A/V team did another stellar job under some time restraints to get set up. Unfortunately, Roy's clinic was interrupted by a Wi-Fi malfunction not caused by the team, but they were able to correct very quickly. Well done.

### **Coming up:**

**December 12<sup>th</sup>**- We'll meet at new venue in the Dunham Recreation Center, 4356 Dunham Lane, Cincinnati, OH 45238. The program is the return of our popular "Potluck Electronic Slide Show". Bring your favorite photos on a flash drive in groups of 10 to 20. The contest subject for both models and photos are "Box or Refrigeration Car". Layout visits to Dennis Malloy and Jerry Strangarity.

**January 9<sup>th</sup>**- Meeting at the American Legion Hall Post 194, 401 Reading Rd. Mason, OH 45040. Sam Parfitt and Paul Alphonse will team up to present "Painting Your Loco & Car Models". The Contest is "Caboose or Passenger Car" for both models and photos. Layout visits to Ed Swain and Patrick Stanley.

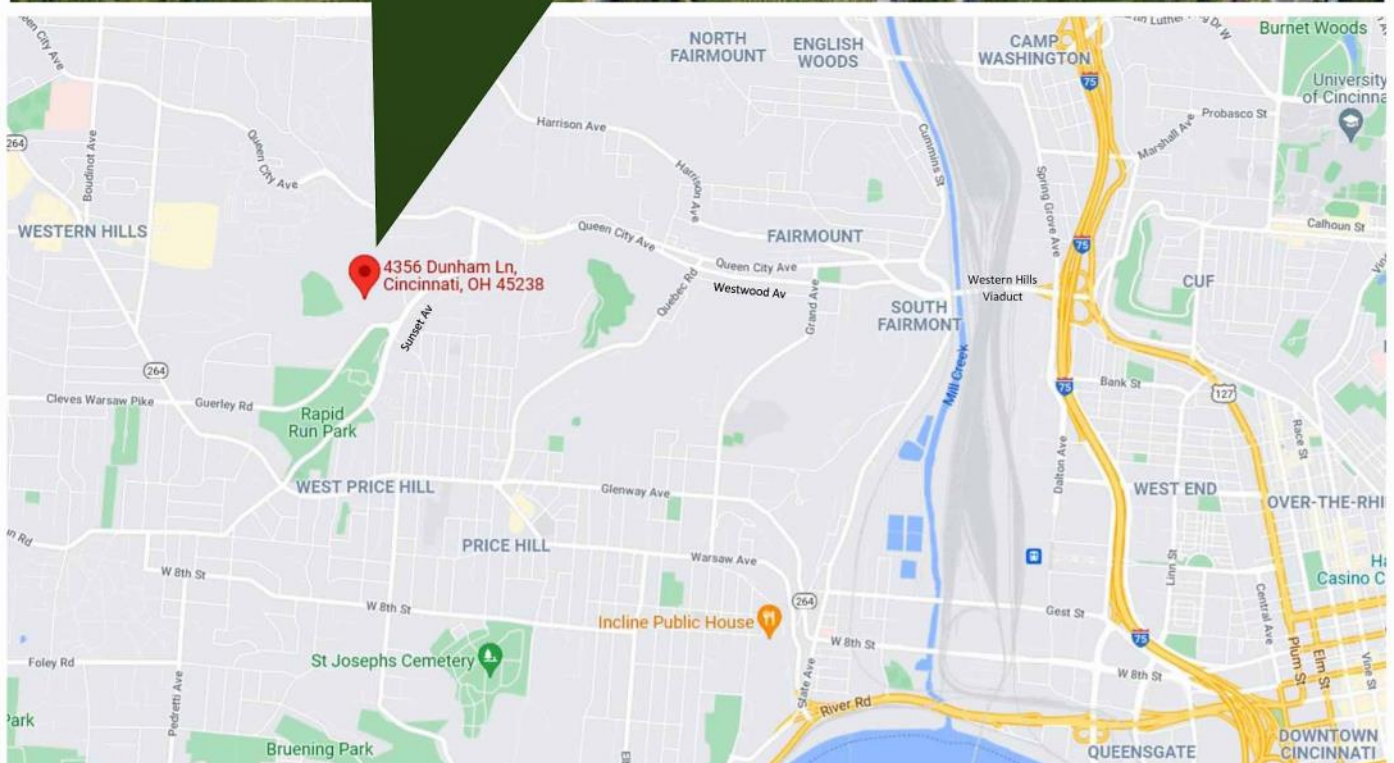

See you at the December meeting,

# Eastern Loggers Layout Moved to Pennsylvania Lumber Museum

By John Burchnall

After one and a half years of delays due to the pandemic, the Eastern Loggers 1920's Era HO/HOn3 Pennsylvania Logging Layout has been safely moved and set-up at the Pennsylvania Lumber Museum. Jerry Strangarity, Mike Tener and I, along with gracious heavy lifting and transport support from the museum staff and volunteers, accomplished this feat in early November.

This is a big milestone and a most appropriate ultimate destination for this one-of-a-kind award-winning layout. The Museum staff and their "friends" group are finishing the lighting, protective panels and supporting exhibits in the wonderful new exhibit room specifically prepared for this. Once that's finished, they'll open the exhibit to the public, use it to interpret and demonstrate the many logging-era industries and practices, plus occasionally operate it.

We encourage everyone to visit the museum in North-Central PA, on US Rt. 6, about equidistant between Coudersport and Galeton. The address is 5660 US-6 W, Ulysses, PA 16948, and their website is [lumber-museum.org](http://lumber-museum.org). The attractive 10-acre campus features a large main exhibit building, steam-powered sawmill, early 1900's lumber camp, 70-ton 3-truck Shay, 15-ton Brookville Loco Works diesel and the only restored Barnhart log loader in the world. They conduct three special events each year with additional exhibits and activities, including running their sawmill. Their signature event is the Bark Peelers' Festival held each July 4th weekend, when their Shay and Barnhart are rolled out.

Why are we donating the layout, and why now? The short answer is we have achieved our group goals and have had 41 years of enjoyment doing so. Further, the layout turned out to be very unique and of museum quality, plus it's portability made such a move feasible. Additionally, we all are now pursuing other modeling interests. Best of all, we're still healthy enough to occasionally travel there to visit and teach them about the railroad, and potentially conduct guest operating and/or photo sessions.

Earlier this year the layout was photographed by Model Railroader Contributing Editor Lou Sassi for a fourth feature article. That article will appear in Model Railroader or Great Model Railroads sometime in the next couple years. Along the way, we made several touch-ups and refinements, including completing some unfinished structure details and wiring, plus many loco and car preparations.

By John Burchnall, for the Eastern Loggers, November 2021

**RPM**  
CONFERENCE

**Great News! Registrations for the convention and the hotel are now both OPEN.** You can register for the Convention, and while you're on the website, make a room reservation. Go now to: <https://www.indyjunction2022.org/>

If you've registered for a lot of conventions, you can probably wing it. If you're a "manual reader", the Registration Committee has provided some great instructions. We suggest you read through the instructions before you get started. The only way to register for Indy Junction 2022 is online and through the website.

If you run into any problems, the Registrar is standing by to help you. He's a person so he'll get back to you within 24 hours. (Likely sooner if you make contact during daylight hours.) Here's the contact link if you need help registering - [registration@indyjunction2022.org](mailto:registration@indyjunction2022.org)

We shared the Convention fees before - here they are again:

- **\$85.00 Early Registration - Opening Registration to December 31, 2021**
- **\$95.00 Registration - January 1, 2022 to April 27, 2022**
- **\$110.00 Late Registration - April 28, 2022 to May 21, 2022**
- **\$25.00 additional Family Member(s) Registration - any date**
- **\$40.00 Saturday May 21 ONLY, Individual Registration (One-Day includes Train Show)**

And while you're on the site, get your hotel room reserved. We strongly suggest you use the link on the website to reserve your room. Marriott is experiencing some staffing problems for telephone support. They give you some outstanding help once you connect - but there can be some extended hold times to speak with someone on the phone. (We're not kidding - wait times can run from 10 to 30 minutes. Everyone in hospitality is experiencing labor shortages.)

- **Marriott East Indianapolis Room Rate: \$132.00 per night plus applicable taxes**

If you're new to these updates, most of the information we've previously shared is now on the Indy Junction 2022 website. Take a look around while you're there. We encourage you to tell your fellow model railroaders to sign up on the Homepage for Convention Updates. We'll continue to keep you updated with the latest Convention Information with an update in the middle of each month. More often when there is something important that we think you need to know right away.

One final registration tip - If you are accessing the Indy Junction 2022 webpage on your mobile device, phone or tablet, you'll need to click the menu icon on the top of the homepage to see all the pages.

Please share this update with someone who hasn't yet signed up for updates on the Indy Junction 2022 website - <https://www.indyjunction2022.org/>

Indy Junction 2022 Marketing Committee – August 13, 2021

# DIVISION 7 - ANNOUNCEMENTS

Great Northern Railway Operating Session on December 18 at 7 PM (Saturday)

**NOTE: Contact Sam Parfitt prior to attending, in order to confirm the Operating Session. --- Ed.**

The next ops is the normal 3<sup>rd</sup> w/e Saturday.

Pizza at 6:30-7:00.

Please email if attending.

## NEW POLICY:

Since there's not a lot to do outside our homes related to railroading, those who wish to have a 'one-on-one' or with own friends to operate the layout during the month, please email or call.

Being retired, I spend the bulk of my time in the basement so visitors are always welcomed. Thanks.

## NEW PROJECTS:

Installed decoders in several more engines. A selection of 50 engines can now be done.

Mission Statement: Main theme of my railroad (besides modeling the Great Northern Railway): when building the railroad, I wanted to model mainline running with big time steam and 'scale like' trains of 25-45 cars on single track mainline with passing sidings.

## USUAL STATS:

Time: 1938. All steam and electrics. The GN railway is a point to point railroad, 400' mainline with two 400-500 car yards at Seattle, Wash and St Paul, Minn, each having 20+ track turntables and one staging yard holding 300 cars. Minimum radius, 48" with #10 turnouts. Track all hand laid on individual wooden ties. 100% scenery.

Four track 12' ore dock.

For pictures see:

<http://ogrforum.ogaugerr.com/topic/great-northern-railway?page=1>

Video:

<https://www.youtube.com/watch?v=tOb7SgZTLWA>

[The Operating session is also listed in the NMRA MCR div 7 web site:](https://cincy-div7.org/events.html)

<https://cincy-div7.org/events.html>

Junk food and beverage will be available :)

thanks

# DIVISION 7 - ANNOUNCEMENTS

## HOLIDAY JUNCTION RETURNS FOR THE 2021 HOLIDAY SEASON

Holiday Junction, a beloved Cincinnati holiday tradition, pulls in to the Cincinnati Museum Center at Union Terminal on Friday, November 12, 2021. This year marks 75 years since the Duke Energy Holiday Trains made their first appearance in the Cincinnati Gas & Electric (CG&E) lobby, much to the delight of generations of Greater Cincinnatians through the years.

The historic O-scale B&O layout's history in Cincinnati goes back to 1946 when the Baltimore & Ohio Railroad shipped it (by rail of course) to town on loan to CG&E to be displayed in their downtown Cincinnati lobby during the holiday season. And so began one of our much loved holiday traditions, filling generations of Greater Cincinnatians with so many memories through the years. The layout has around 1,000 ft. of track, 60 locomotives, and 300 railroad cars which travel approximately 100,000 scale miles in a normal pre-pandemic season.

Don't forget to check out the no-touch interactive storybook filled with photos and the history of the Duke Energy Holiday Trains!

There is more to Holiday Junction than the Duke Energy Holiday Trains. You'll find multiple operating model railroads and railroad artifacts throughout the exhibit. Watch one of the earliest electric toy trains, the c. 1904 Carlisle & Finch train, travel around its track. There's also the winter-themed garden railway layout created by our friends at the Greater Cincinnati Garden Railway Society, Thomas the Train G-scale layout, a 1960s era Lionel Super O layout, and the Lionel pre-war layout for *(my favorite to operate)*. Let's not forget about the impressive Brickopolis exhibit created by the talented folks at OKILug, filled with operating trains and other scenes made with LEGO bricks in a separate gallery.

Again this year, the children's train ride will not be operating. In its place is a scavenger hunt for themed items hidden throughout the garden railway layout. Another advantage of the children's train ride not operating is that adults can now view the entire garden railway layout which just wasn't possible with the ride operating around the layout. So don't forget to take advantage of the view!

Santa will be coming back to the Public Landing beginning on Nov. 26<sup>th</sup>, where he'll be looking out his window to chat and take photos with guests from a safe distance.

Holiday Junction runs November 12, 2021 through January 3, 2022 & is open 10:00am-4:00pm Thursday through Monday & some special holiday hours. Admission is free for CMC Members. Non-member admission is \$10 each for adults & children over 2 or \$5 each if added to regular museum admission. Visit [cincymuseum.org/holiday-junction](http://cincymuseum.org/holiday-junction) for more details and special holiday hours.

**Pam Moleski**

## LOST BUT FOUND

The poster shown here was left behind the NMRA booth at our Fall Show.  
If you are the owner, please contact Rick Crumrine

Rick Crumrine  
1795 Woodpine Ln.  
Cincinnati, Ohio 45255

# DIVISION 7 - CLASSIFIED ADS

As a benefit to Division 7 members, the Oil Can will offer to list free Classified Ads to allow members to sell railroad-related items. A few other Divisions offer such a program. The Board will periodically re-evaluate the program. If you have items to sell, please review the Rules, and send an email to [editor@cincy-div7.org](mailto:editor@cincy-div7.org)

## CLASSIFIED AD RULES:

Item(s) must be railroad related.

Seller must be a Member of Division 7 MCR NMRA.

Listing description shall be 30 words or less.

Item(s) can be displayed for a maximum of three (3) months. Oil Can Editor will assign a Listing Number that will include the last month of listing. (E.g., "xx-July 2015" would indicate Listing xx will be listed through the July 2015 Oil Can).

Seller must list name, and either Phone Number and/or Email, so the interested Buyer can contact Seller. It will not be listed without them. **(NOTE: Seller agrees to allow contact information to be published in the Oilcan, which is published on the Internet).**

A single photo may be submitted for each listing.

Limit of three (3) listings from same Seller at any one time.

Seller shall email Oil Can Editor if item is sold so it can be removed from page.

All transactions are between the Buyer and the Seller.

Oilcan Editor reserves the right to edit listing if needed, and will notify Seller of edit prior to publication.

Picture	Description	Price	Name	Phone, or Email	Listing No.
