EPAD

527 Keisler Drive, Suite 102, Cary NC 27518

(919) 816-9222 MicroPlus1@AOL.COM

A powerful way to speed up service to your customers and increase productivity

Each EPAD comes with a Stainless Steel BumpBar Keypad, to remove orders, recall bumped orders and display statistical reports. This rugged BumpBar Keypad is designed to withstand the harsh environment of today's restaurant production areas.

The EPAD controller is a workhorse for KDS. This miniature device, which mounts on the back of most flat screen monitors, is ideal for the kitchen workplace where space is at a premium.

The EPAD is a snap to install with no jumpers or internal settings. Simply select the POS system from the setup menu, plug in the monitor and BumpBar Keypad, then connect to the POS system via RS-232 or Ethernet cable and you are up and running.

BumpBar Keypad

EPAD Controller

The MicroPlus EPAD provides 100% compatible software migration for thousands of MicroPlus MPAD, MPAD+ and PC based Kitchen Video Systems installed all over the world.

Call your POS vendor and ask about the EPAD kitchen video.
