

# VITAL BON-MATT HR DRAINS

**With a focus on green and sustainable industrial chemicals, Vital Chemical have developed a soil stabilising agent suitable for concentrated high velocity flows.**

Vital Bon-Matt HR is a heavy duty and robust polymer emulsion specifically formulated for the most challenging velocities and flow over exposed drain and channel surfaces. An environmentally sound formulation for efficient stabilisation and ground control. Vital Bon-Matt HR is an ideal solution for hydraulic lining as it binds the exposed surface, stabilising channels and drains resulting in clear water run-off.

## Robust Channel Stabilisation Solutions

### BENEFITS

- Robust soil stabilisation
- Provides clear water diversion from the applied surface
- Provides a flexible surface allowing for vegetation growth
- Cost efficient
- Ease of application
- Will not remobilise
- Certified Non-Hazardous
- Environmentally sound

HEAVY DUTY DUST SUPPRESSION TECHNOLOGY SPECIFICALLY DESIGNED FOR ALL MINING, CIVIL, CONSTRUCTION AND UNSEALED PUBLIC ROAD SURFACES

Vital Chemical's industry partner Ecotec provides Vital Bon-Matt products.

**Vital Chemical provides products which enable our clients to adapt best practice technologies to mitigate the environmental impact of mining and civil developments. Vital Chemical's products are designed for ease of use without the need for specialised equipment.**
