

# LATRINE PROJECT

(ASSIN DAMANG GHANA)

## | ABOUT COMMUNITY |

**Assin Darmang** is a town in the Central Region. The town is known for the Adankwaman and Holycity Senior High School. The school is a second cycle institution. opulation size, structure and composition The population of Assin South District, according to the 2010 Population and Housing Census, is 104,244 representing 4.7 percent of the region's total population. Males constitute 48.9 percent and females represent 51.1 percent. The district is entirely rural (100%). The most commonly used toilet facility in the district is pit latrine accounting for 36.0%, 16.1% of households in the district have no toilet facility.

## | OUR MISSION

The Asin Damang people of Ghana Africa need help in order to get a standard latrine and bath rooms with proper hygiene equipment and we at Hooked OnAfrica have taken it upon ourselves to bring a little light to such community. Hooked On Africa Foundation aims at helping the small community of assin damang to provide good latrine facilities

Most kids have to bathe outside their houses and this can cause more harm to the community,there are not enough latrines in the little community for people to use so they devise other means which is also harmful to them and their community.

## | BENEFITS |

**Hooked on Africa Foundation**, we are looking at solving this major problem in this community so the people of Assin Damang can live healthy lives as well as develop in good infrastructure;

- ▶ This will help make the house holds a comfortable place to live
- ▶ To protect little children and young ladies from getting diseases caused by an unhealthy environment and latrine

BEFORE

AFTER
