

PILLOW CASES THE HOT DOG WAY

For each pillowcase you will need:

9"- This is the border - or cuff - WOF (width of fabric)

27" (3/4 yard) fabric for main body - WOF

Trim all pieces to 42" (see note below)

1. Start with the 9" piece of border - this is the bun - right side up.
2. Lay the 27" big piece on the border RST
3. Roll the large piece into a tube making sure the 9" piece can roll around the cuff.
(See Diagram #1)
4. Wrap the bun around the rolled tube. Make sure all the raw edges are lined up - pinning every 3" or so and stitch. After you have sewn the roll together, pull the fabric from the inside of the tube. You will now have a cuff and pillow. (See Diagram #2)
5. Fold in half with **wrong sides together** and top stitch $\frac{1}{4}$ " seam along the bottom and side. Turn inside out and with **right sides together** (use something pointy - a knitting needle or chop stick works well) to bring out the corners and define the seam edges. Press.
(See Diagram #3)
6. Sew a $\frac{3}{8}$ " seam along the seamed edges. Turn right side out and give it a final press - you're done!
7. OR if you have a serger that is ideal.

Diagram #3

Note: Most of the kits have been cut to size, but please measure first. Also, some of them may have shorter bodies and larger cuffs, in that case just make the cuff larger.
