<p>THE ORIGINATOR</p> <p>By virtue of the original nature of the ingredients used these spiritual emotionally stimulating essences are not solely limited to the cosmetic industry. They transcend the boundaries of mundane application into the highly practical scientific usage in modern holistic health care and preventative medicine of today. The Art of Healing is an important human involvement that existed long before the practice of medicine or the scientific method that we now know. The forefathers then known as the <i>Apothecary</i> were divinely inspired and able to unlock the secrets of life hidden within the nature of plants and animals. The practice of Aromatherapy evolved into the art of the Apothecary in accord with the Law of Moses that was revealed to him through divine inspiration in the sacred valley Tuwa by the Creator of Heaven and Earth. Even before that miraculous event Our Fathers were seeking knowledge of the Creator through the study of His Creation. They realized that all things that exist were created by one creator, and that all of creation finds peace (satisfaction) in His Being. The standard for truth in research was thus established in the cradle of civilization "The Land of Kemet". The Mystic scholars were recognized as The <i>Al-Kemetist</i>(Al-Chemist), who studied the true Nature of ALL THINGS. They referred to the Creator with the Name Allah.</p>	<p>Patch, holy bush</p>  <p>² There the angel of the Lord appeared to him in flames of fire from within a bush. Moses saw that though the bush was on fire it did not burn up. ³ So Moses thought, "I will go over and see this strange sight—why the bush does not burn up.</p>
