DANDUX® Reusable Shipping Containers are ideal for in-plant, over the road, or out of the country movement of goods. These durable one-piece rotationally molded units feature a smooth interior, weight saving single wall body, and rugged double wall lip. Dimensioned to maximize container cube, units stack on removable lids and nest when empty for optimum space saving.

Well constructed, competitively priced, and available in six standard colors or recycled material. Also available with optional molded dolly for in-plant movement.

Whether moving raw materials, cut goods, piece goods, or finished product, these DANDUX® containers meet your needs.
