THANK YOU TO THE FOLLOWING COMPANIES FOR SPONSORING THE NRN CONFERENCE

Paul Walters, Oncology Account Manager

“A global pharmaceutical company with a major UK presence. Our purpose is to push the boundaries of science to deliver life-changing medicines. The best way we can help patients is to be science-led and share this passion with the scientific, healthcare and business communities of the UK.

We interact with healthcare professionals as part of our sales and marketing work, ensuring that clinicians have the best access to information about our medicines in order to make appropriate prescribing decisions.”

RaySearch
Laboratories

Wayne Martel
Regional Business Director

RaySearch Laboratories AB (publ) is a medical technology company that develops innovative software solutions for improved cancer treatment. RaySearch markets the RayStation® treatment planning system (TPS) and the oncology information system (OIS) RayCare®. The most recent additions to the RaySearch product line are RayIntelligence® and RayCommand®. RayIntelligence is an oncology analytics system (OAS) which enables cancer clinics to collect, structure and analyze data. RayCommand®, a treatment control system (TCS), is designed to link the treatment machine and the treatment planning and oncology information systems. RaySearch software is used by over 2,600 clinics in more than 65 countries. The company was founded in 2000 as a spin-off from the Karolinska Institute in Stockholm and the share has been listed on Nasdaq Stockholm since 2003.

Vertec

Now established in the UK for more than three decades, Vertec Scientific has earned a reputation for supplying and supporting a wide range of high quality health technology products, accessories and consumables from across the world.

This range includes C-Rad's Catalyst™ high-end solution for real-time patient tracking consists of a next generation optical surface scanning and re-projection hardware device coupled with a highly optimised application software designed for work-flow integration.

Radiation therapy is a complex process, where many pieces of equipment, in many cases from different vendors, need to work together during the different steps of the treatment chain. The Catalyst provides automatic and independent verification of many critical parameters that were previously only possible to check manually. The Catalyst thus reinforces the treatment chain.

The portfolio is supported by qualified Applications Specialists, Product Specialists and multi-faceted Service Engineers.

Vertec's success is due to its unyielding customer focus and its strategy of only marketing best in class products.

Ross Lethbridge
UK Sales Manager

Nathan Flannery
Sales and Operations Manager

Xiel is a specialist distributor of medical technologies in UK and Ireland. We work with global leading solution providers; therefore, continuously improving efficiency and quality for our customers. Our partners research and develop highly specific products for what is often a small world market. The expertise of Xiel lies in our deep understanding of the structure and organisation of radiotherapy departments in the UK and Ireland, for us to advise on the best solutions possible. Xiel exclusively represent Sun Nuclear, CIRS, MVision, Adaptiiv, Cablon, RTI and CaliberMRI to name a few. Please visit the booth today to meet our radiotherapy experts.

*Xiel. Exceptional Products. Extraordinary Service.
Everyday.*
