# VIRGINIA SOLAR SUMMIT

May 13-15

**DOWNTOWN RICHMOND MARRIOTT**

A fully-loaded 2024 Virginia Solar Summit returns to Richmond for 3 difference-making days of practical solar energy + land use + environmental stewardship programming and exceptional networking May 13, 14 and 15! Join 500+ members of the VSS community, and many new colleagues and friends, at the Richmond Marriott for one of the industry's most immersive solar development experiences featuring front-line practitioners and policymakers, impactful sessions and interactive forums, workshops and tutorials, as well as supercharged networking with 12 official networking events scheduled!

Co-hosted again by the Virginia Department of Energy and the Virginia Department of Environmental Quality, VSS24 is a collaborative and diverse regional assembly that gathers energy, environment and development professionals of all disciplines, including: nonprofit & institutional professionals, engineers, attorneys, environmental professionals, landowners, communities, solar developers, investors, utilities, policy makers, and economic developers as well as state and federal governmental professionals from across numerous agencies.

So, who should register to attend the 2024 Virginia Solar Summit? ANYONE with a general interest in the practice or policy of solar power development in Greater Virginia, and EVERYONE with a specific interest in a ground-mounted solar energy project!

Attendees can expect a resource-rich and action-oriented 3-day solar energy development event of the highest caliber consisting of a dynamic and diverse educational program that ranges from entry-level examination of the project lifecycle from conception through construction, operation & decommission, to deep policy dives, and technical discussion. Landowners and communities can sign up their potential solar sites and receive a free pass to attend, while supplies last, in order to access the solar development market directly, make connections, and see the solar development space working in real-time.

How substantive is the VSS24 program? VA DEQ credited 8 Contact Hours for our last conference! And this year we're working to add professional hours and credits for engineers and lawyers as well.

This year's feature topics include agrivoltaics or dual-use solar, solar redevelopment or brightfield development, and a number of workshops and tutorials that will provide deep dives into relevant state & federal programs and permitting, grant application and project financing, and community engagement.

Join us at the downtown Richmond Marriott May 13-15 to add your spark to Greater Virginia's brightest future for three brilliant days of connection, education and inspiration in 2024's most substantive, must-attend solar energy development event!

CO-HOSTED BY:

# 2024 VIRGINIA SOLAR SUMMIT PROGRAM

Led by an elite speaker lineup of more than 60 of today's foremost practitioners, a stellar VSS24 program will offer basic 101-level instruction for novices as well as advanced sessions for practitioners. Our high-substance approach and robust session offerings will cover the spectrum of the solar project life cycle from beginning to end, and from basic, need-to-knows up to the state of the art and best practices.

We encourage one and all to attend this power-packed event for applied knowledge from the industry's most capable pros, usable guidance from government experts, an expansive exhibition showcasing some of the best companies and organizations in the space, and extensive networking opportunities with one of the most constructive and collaborative professional communities you'll find anywhere in any industry!

## INFORMATION MODULES

### BASICS OF SOLAR LAND USE

*Including sessions discussing these topics:*

- Ground-Mounted Solar Energy Development 100
- Intro to Agrivoltaics: True Dual-Use Potential
- Landscape of State & Federal Programs & Grants
- Siting, Permitting and Building Solar in VA & WV
- Pollinators 101: Solar is Building Habitat for Bees
- ABCs of Brownfield-to-Brightfield Redevelopment

### ADVANCED SOLAR DEVELOPMENT

*Including sessions discussing these topics:*

- Solar Stormwaters: Ground Mounts & Groundwater
- Solar Grazing 201: Grazing is Green & Saves Green
- Solar's Conservation & Preservation Superpowers
- Community Engagement Best Practices
- Grants & Financing: Guidance for a Post-IRA Reality
- Advanced Issues in Land Use and State Policy
- Brightfields 300: Repowering Marginal Lands

### CASE STUDIES IN PROJECT SUCCESS

### SOLAR POWER POLICY PANEL

## INTERACTIVE MODULES

### SUPERCHARGED SOLAR SOCIALIZING

12 official networking activities offer immersive experience & supercharged connection potential.

### OPEN EXPERT Q&A FORUMS

Each full-day's program concludes with an extra-long open session hosted by a diversity of leading experts in energy, environment and development.

### EXHIBITOR EXPO

Dynamic Expo Hall anchored in between breakout sessions, workshops and the main ballroom will serve as hub of primary Day 2 Happy Hour(s).

### TECHNICAL ASSISTANCE WORKSHOPS

Interactive Q&A sessions featuring experts answering your questions, with emphasis on best practices, brainstorming and troubleshooting.

### POSTER GALLERY

Meet with some of the smartest folks in solar, energy and environment who submitted posters and were selected to display on-site during VSS24.

## VSS24 CONFERENCE ARCHIVE\*

Follow up resource compendium bundled digitally and sent following the event's conclusion as reference material and resource guide.

**INCLUDES:**

### ALL VSS24 PRESENTATIONS

-All presenter materials incl. slides, links & worksheets.

### RECOMMENDED RESOURCES

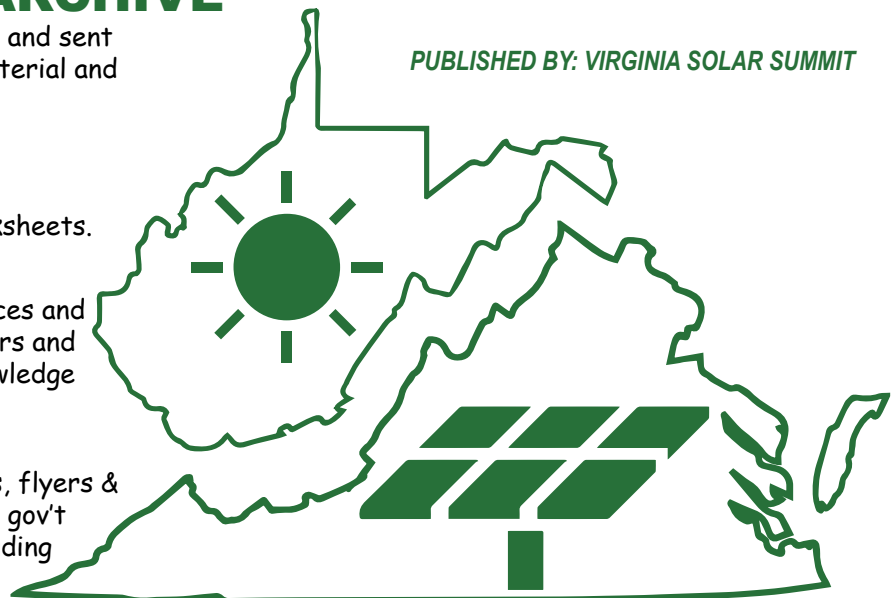

-An index of solar development, program resources and research selected by co-hosts, speakers, sponsors and other solar professionals to help build solar knowledge and advance the state of the art.

### INFORMATION SHEETS

-A collection of articles, summary pages, studies, flyers & references materials nominated by participating gov't entities, solar companies and professionals, including speakers, exhibitors & sponsors.

*\*Official VSS24 Conference Archive is FREE to every registered attendee!*
