

[JOIN US!](#)

Interested in flying model airplanes? Then we're the club for you!

The "Winnebago RC Flyers" own their own well groomed FAA approved model airplane flying field just 6 miles south of Oshkosh off Hwy 26.

- Five wide-open acres
- Five hundred foot runway
- Grass cut short twice a week
- Permanent covered shelter with concrete floor
- Fun events and get-togethers
- FAA Approved

[And That's Not All!](#)

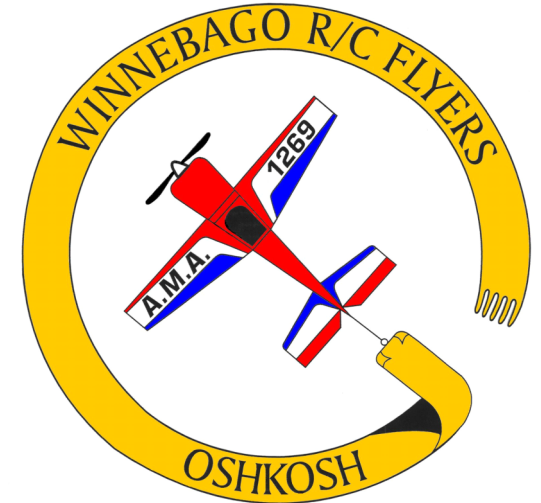

During the months November through March, we sponsor indoor model airplane flying at Carl Traeger School in Oshkosh!

New to the hobby? Not sure how to start? We can help. Your membership with us includes assistance in setting up your model for flight, as well as flight instruction.

So what are you waiting for?
