HARBORTOUCH ONYX POS

A Best-in-Class POS Solution for Retail Businesses

The Harbortouch Onyx POS system delivers a high quality
point-of-sale solution that is unmatched in both reliability and functionality.

Save time and money with Harbortouch POS for retail businesses. Efficiently manage your business - whether
it's a clothing store, convenience store, hardware store, or any other type of retail location - so that
you can focus on what's important: keeping your customers satisfied and spending!

BENEFIT FROM ADVANCED SOFTWARE WITH TOP-OF-THE-LINE HARDWARE

State-of-the-art POS software provides all the features and functionality needed to support your business while high-end hardware provides the reliability you need.

UTILIZE COUNTLESS TIME AND MONEY SAVING FEATURES

Increase operational efficiency, minimize ordering errors and reduce shrinkage. More accurate employee time tracking reduces payroll while Harbortouch's reporting capabilities help you decrease accounting and bookkeeping expenses.

PROFESSIONAL INSTALLATION, COMPREHENSIVE TRAINING & 24 HOUR SUPPORT

Your POS system will be professionally installed by one of our certified technicians. We provide preliminary onsite training and extensive remote training to make sure you are proficient with your new system. In-house customer service and technical support are available 24 hours a day, 7 days a week.

POWERFUL REPORTING CAPABILITIES

A wide range of reports, including your key performance indicators, will provide you with a top-level view of your operations so that you can make more informed business decisions. Harbortouch's powerful Lighthouse platform provides you with remote access to your reports anytime, anywhere.

NFC & EMV READY

Qualifying merchants can receive a free customer-facing PIN pad that supports PIN debit, EBT, EMV chip cards and NFC payments including Apple Pay™ and Android Pay™.

HYBRID CLOUD

Hybrid cloud technology provides the benefits of the cloud such as real-time reporting and redundant back-up while maintaining the advantages of a local system including faster speed and the ability to operate if the Internet goes down.

BENEFIT FROM A WIDE RANGE OF USEFUL FEATURES

- **Color/Size/Style Matrix**: Ideal for clothing and footwear stores, easily set up an attribute matrix that includes different colors, sizes and styles, streamlining the item selection and order process.

- **Inventory Tracking**: Import your existing inventory database in a snap. Once your inventory has been uploaded, the system will track your sales to monitor your stock levels and even create purchase orders automatically when stock runs low.

- **Employee Commissions**: Pay your employees commissions for selling particular products. Commissions can be awarded as a percentage of the sale price, percentage of the profit or a flat amount.

- **Employee Management**: Track your employees with a built-in time clock and view a detailed breakdown of hours worked for each employee or each day as well as their productivity. Security levels allow you to control the functions that particular employees are authorized to use.

- **Gift Receipts**: Gift receipts don't include prices so that customers can purchase gifts while enabling easy returns and exchanges.

- **Consignment**: Resell items on consignment while tracking how much money should be paid to the consignor.

- **Vendor Management**: Organize all your suppliers and other vendors in a single database to manage all of your important business relationships.

- **Flexible Pricing**: Dynamically customize your product pricing within seconds to accommodate coupons, sales, and other discounts.

- **Gift Registry**: Customers can make a list of items they would like to receive as gifts for a special occasion such as a wedding, graduation or new baby and item quantities are automatically updated as purchases are made.

- **Customer Database**: Keep a comprehensive record of customers' purchasing history and contact information to identify sales trends and best customers, ideal for loyalty and other incentive programs.

- **Layaway**: Layaway allows customers to reserve a particular item to purchase at a later date. The customer can then make payments toward the item until it has been paid in full. Stock levels are reduced when an item is on layaway and automatically replenished if the layaway is cancelled.

- **Purchase Order Creation**: You can create purchase orders directly through your POS system for easy inventory management and item reorders.

The lowest cost of ownership for any POS system on the market
