

My 2022 Bike SA Flinders Ranges Tour

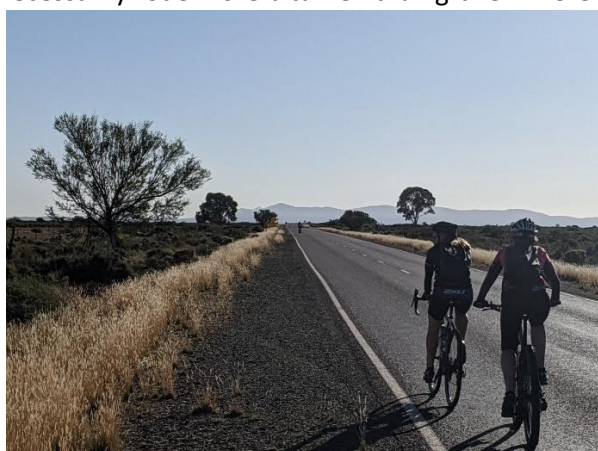

Flinders Escape 2022 was the first time Bike SA had organised a cycling tour in the Flinders Ranges with both bitumen & gravel options. I did some of both.

It was a wonderful place for cycle touring and it was also an opportunity for me to photograph a beautiful part of the Australian landscape I hadn't seen for over 35 years.

These are my favourite photographic impressions.

I necessarily rode more bitumen than gravel. There is still plenty to see along the side of the road.

But what I enjoyed most was getting more intimate with the beautiful landscape off the bitumen.

Often riders were very small specks in this vast landscape.

Days started early on tour (note rider already out of tent), with yoga and / or coffee if you wanted.

Along the way you're going to meet like-minded people. Refreshment stops are provided.

Sometimes I got off my bike just to wander and photograph.

The Flinders Ranges is a place of spectacular rugged beauty and cycle touring with the full support of Bike SA was a wonderful way to experience it.
