

Dear Educators of STEAM subjects and Geography!

UK Mapping Festival are pleased to announce a FREE event for children aged 4-16 years old to attend in your area!

Maps and Cartography for 'STEAM' After School Club

Activities start 3pm-5.30pm on the 4th/5th/6th September

at the ILEC Conference Centre, 47 Lillie Road, Fulham, London, SW6 1UD

The 'After School Club' concept had been created for UKMF2018 by Captain Alice at Mini Map-Makers, with the idea to introduce children how maps are everywhere and how they are in all the subjects taught at school in fun and interactive ways!

It is a great way for all ages (adults included!) to see what these conferences are about – meet the exhibitors, ask questions, meet cartographers, create and make and understand about place!

It's not just Geography! Science, Technology, Engineering, Art and Maths are all involved!

Captain Alice studied Geology at University in London and it was on her Geological Field Mapping Course that she wanted to be a Cartographer! Little did she know how many subjects all are embedded into Cartography! Maths and Art especially!

Each attendee will receive a goody bag with lots of Mappy items to put in it!

Sessions are run at each station 3pm, 3.30pm, 4pm, 4.30pm and 5pm and there is a Symbol Spot trail to go around the exhibition!

The enclosed poster is for you to display and gain interest in your area!

Please register your interest at www.UKMF18.org

We look forward to seeing you in September!
