Quantity ( # )	Item Description	Notations / Request	H2O proof ( Y / N )

We have researched many products and know that we are providing the best possible water-repellent. Please note that the water repellent that we provide does not replace the original waterproofing by the blanket manufacturer. We have great results with blankets that are of 1000 or more denier, no matter what their age or brand. However, blankets that are of a lesser weave do not hold the water repellent as well. If you choose to have your blankets "weather treated" by us we can not guarantee that our water repellent will be equally substantial to that of the manufacturer if the blanket is older than the manufacturers waterproof guarantee.

I have read and understand the H2O repellent disclaimer / Signature \_\_\_\_\_
