CAREER READINESS AND MODERN YOUTH APPRENTICESHIP (CRMYA)

The Career Readiness and Modern Youth Apprenticeship (CRMYA) program will connect students with paid multi-year apprenticeships at companies focused on New York City finance, technology, and business operations by the end of 2023 and student apprentices will earn between $15 and $25 an hour as an entry level wage. The CRMYA initiative is focused on putting each student on a path to a rewarding, engaging career, as well as financial independence and long-term economic security.

CASA
CYBERARTS STUDIO ACADEMY

MISSION

CASA will provide a supportive, safe, equitable student-centered learning environment with a rigorous curriculum across all content areas, where students are engaged in technology infused learning experiences that will equip them with 21st century skills to be college and career ready.

VISION

Our vision at Cyberarts Studio Academy is to prepare students to be college and career ready in an equitable student-centered environment, where all students are equipped with 21st century skills and are empowered to become productive citizens.

NEWS

CYBERARTS STUDIO ACADEMY

WHO ARE WE?

www.cyberartsbk.org

WE ARE AMAZING!

WE ARE CONFIDENT!

WE ARE CREATIVE!

WE ARE SCHOLARS

WE ARE FRIENDS!

CYBERARTS WHAT IS IT?

CYBERARTS, OR CYBERART, REFERS TO THE CLASS OF ART PRODUCED WITH THE HELP OF COMPUTER SOFTWARE AND HARDWARE, OFTEN WITH AN INTERACTIVE OR MULTIMEDIA ASPECT.

MISSION STATEMENT

CASA WILL PROVIDE AN EQUITABLE CULTURALLY-SUPPORTIVE LEARNING ENVIRONMENT WHERE STUDENTS WILL GROW CREATIVELY THROUGH COLLABORATION, COMMUNICATION, AND CRITICAL THINKING TO PROMOTE ACADEMIC SUCCESS, IN ORDER TO BE COLLEGE AND CAREER READY."

TEAM WA

VISION STATEMENT

OUR VISION AT CASA IS TO EMPOWER STUDENTS WITH THE SKILL SETS TO CREATE, COLLABORATE, AND ENGAGE IN MEDIA TECHNOLOGY TO BE COMPETITIVE AND PROACTIVE WITHIN THE GLOBAL COMMUNITY.

WELCOME TO OUR SCHOOL

- A SMALL LEARNING COMMUNITY
- TEACHERS OF THE WHOLE CHILD (ACADEMICALLY AND SOCIALLY)
- BEST ALLIES WITH PARENTS (COMMUNICATION THROUGH PUPILPATH/ IO MESSENGER)
- A SAFE AND SUPPORTIVE ENVIRONMENT

WHO WE ARE

Cyberarts, or cyberart, refers to the class of art produced with the help of computer software and hardware, often with an interactive or multimedia aspect.

WHAT WE DO

INTRO TO GRAPHIC DESIGN

The Graphic Design program offers real world study, and design assignments culminating in the design of posters, editorial/book design, logo creation, promotional design and websites. The goal of the program is to instruct our students to create visually appealing products that convey certain messages or information. Graphic Design majors focus on branding, typography, layout, and the overall principles of design composition. Our students use real world software for designs such as the Adobe Creative Suite, and Canva.

DIGITAL MEDIA

The Digital Media students are instructed in the composition and production of music, along with beat making. Students are tasked to create their own albums of music and are instructed on promoting themselves as performing musicians, and artists. Digital Media majors focus on music creation, music theory, music promotion, and the applications of music in situations such as soundscapes, soundtracks, and podcasts. Currently, our students use the digital audio workstation Soundtrap to compose and produce their music. We are planning to add Logic, Ableton, and Propellerhead Reason for advanced instruction.

PHOTOGRAPHY

CASA's digital photography courses offer students training in beginning through advanced level concepts in both traditional and digital photography, as well as courses in photo journalism. From camera basics and exploring the function of digital lenses, to experimenting with digital photography software essentials like **Adobe Photoshop, Lightroom,** and **After Effects**, students will learn how to compose and produce a series of digital compositions while learning how to showcase their work.

FILM ARTS

The Film Arts program at CASA offers students a holistic approach to both screen studies and film production. Students will learn about the history of screen and cinema arts, in addition to the fundamentals of film production including: story development and screenwriting, using DSLR cameras, editing, pre and post production, and showcasing student film compositions. CASA students will work first hand with industry professionals through our school's partnership with Brooklyn's **BRIC Arts Media.**

PORTFOLIO DEVELOPMENT

At the end of each arts concentration, students will engage in portfolio development. By the time that they reach their senior year, CASA students will have art portfolios for Digital Arts and Media, Photography, and the Film Arts tracks.
