New York State Newly Proposed Template for DCEPs:

- At DOE-District level there are DCIPs District Comprehensive Improvement Plans. At District-School level there are DCEPs District Comprehensive Educational Plans. At School-School Community level there are CEPs Comprehensive Educational Plans.
- The DCEP layout looks just like the CEP: It has the Mission, and Vision Statements of the District, as well as reviewed district data, annual goals, family and community engagement strategies, and plans of action.
- This year, there are some projected changes: The new DCEP is going to be aligned with the education plans of the NYS Education Department.
- It ties the Chancellor's priorities with NYSED's Pillars

Chancellor's Four Priorities	NYSED Pillars
Accelerate Learning and Instruction	Effective School Leadership
	Effective Curriculum
Partner with Communities	Effective Instruction

	Effective Systems For Social Emotional Learning
Advance Equity Now	Effective Systems for Parent and Community Engagement
Develop People	Effective Systems and Organizations

- The new DCEP specifically details effective instruction and systems of social emotional learning, as well as systems for parent and community engagement.
- This creates accountability measures for the District to explain more of what they are doing and why they are doing it.
- Annual DLT goals, action plans, and strategies are up to date.
- The DLT will work on the new template once approved, and information will be uploaded to the [iPlan Portal](#) for public viewing: currently posted DECPs, and CEPs are for the 2018-19 school year.
- A large part of the DCEP is the Family and Community Empowerment section. The new DCEP has more structure, and systems are in place to support this part. This is a NY State aligned document. CECs are not mentioned in the current DCEP template, yet are a big part of community empowerment in the NYC School District.
