THE **UNSINKABLES**

McKEE CRAFT — Built to Last & UNSINKABLE™.

Stainless rails are functional.

Stainless deck hardware is through-bolted with aircraft-type lock nuts.

Hull, Liner and Deck are through-bolted with aircraft-type locking nuts.

Plywood reinforces gunwale and sole of boat.

Heavy duty hand laid outer hull.

Fiberglass stringer adds integrity.

For safety, 2-lb. density foam is used to fill bottom and sides.

3" PVC tubes for ease in rigging.

Storage & 280 Qt. Below Deck Storage.**

For 1987, McKee Craft adds the **Hammerhead 220 Series** to its line of "Unsinkables". This new VEE HULL is available in two models that will attract the attention of the serious offshore fisherman. From the "rock-solid" construction which features a fiberglass stringer system that is foam filled plus the bottom and sides which have full foam for flotation and safety to the many standard features such as hydraulic steering, hi-speed compass, 35 gallon round aerated livewell, 127 gal. fuel tank, large fish box and storage boxes plus many, many more standard features, the **Hammerhead 220** is ready to go for the fish.
