# About us

Our Colorado-based mosaic design company takes inspiration from the beautiful Rocky Mountains that surround us. We use this inspiration to help our customers create custom designs without the usual obstacles of high prices and long production times. By evoking natural forms and Nordic patterns, our mosaics will instantly set the tone for your space. The texture of our vitreous glass mosaics reminds of the knitted sweaters that have featured similar patterns for hundreds of years.

Our modular designs offer infinite possibilities for creating the perfect look that speaks to your space, from the classic elegance of a luxurious alpine lodge to the rustic look of a mountain cabin. All of our products fit together: they consist of just four carefully selected colors and two sheet sizes, so you don't have to worry about making "mistakes" as you create your own design. Use combinations of our mosaics featuring all four colors for a more lively design, or choose patterns with just two colors for a more serene look.

Check out our pattern library for examples of the countless unique designs these combinations can provide at [www.subtile-tile.com](http://www.subtile-tile.com).

## Subtile color palette

The picture on the next page was taken on an early October morning, looking back as the road heads up to Independence Pass, above Aspen, Colorado. One of the first snows of the season had left just a sprinkle of white on the browns and greys of the Fall, and the filtered morning light turned the pine trees in the distance dark blue. The color palette of Subtile was born.
