

REVENUE COLLECTIONS

RELEASE NOTES – SEPTEMBER 2017

This document explains new product enhancements added to the ADMINS Unified Community for Windows **REVENUE COLLECTIONS** system.

Table of Contents

- 1. REPORTS..... 2**
 - 1.1. Mailing Labels for Deferrals/Tax Title [New].....2
 - 1.2. Posting Reports Now Have Up To 99 Versions [New]3
- 2. E-MAIL TREASURY RECEIPT BATCH COVER SHEET [NEW] 4**
- 3. QUICK REPORT SELECTOR [NEW] 5**
- 4. NEW BUTTON TO SHOW “HIDDEN” REPORTS [NEW-V9.2] 6**
- 5. CRYSTAL REPORT TITLES UPDATED [NEW] 7**
- 6. EMAIL USERS [NEW] 7**
- 7. SCREEN DELAY [FIX] 8**
- 8. HELP REFERENCE LIBRARY 9**
 - 8.1. New or Updated Documentation9

1. REPORTS

1.1. Mailing Labels for Deferrals/Tax Title [New]

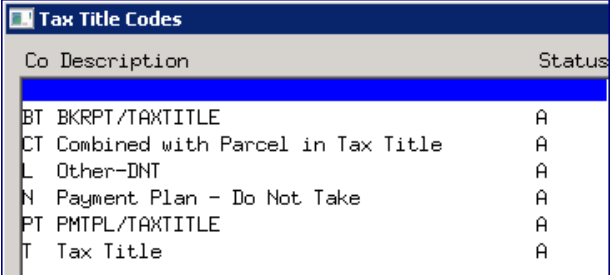

ADMINS added the ability to produce a CSV file from the Real Estate files for Deferrals and Tax Title to be used when creating labels or form letters. To create the file, select **Tax ▶ Reports ▶ Report Library ▶ Collection Admin ▶ 5616-Tax Title/Deferral Mailing Address Labels**.

Figure 1 Tax Title/Deferral mailing Address Labels

The mailing labels report looks at the **Tax Title Flag** and **Deferral Flag** on the **Parcel Maintenance** screen to select the addresses to be included. There are a number of options available when creating the file; required fields are in **BOLD**:

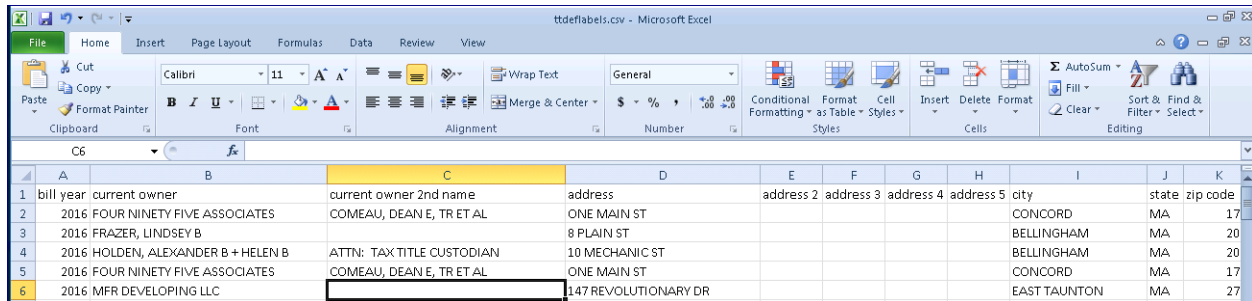

Field Name	Description
Bill Year	Required field – enter the four-digit bill year
Send To	Current Owner/Owner of Record/Both if Different
Parcel Class Codes	Up to nine parcel class codes may be entered or may be selected from a lookup
Land Use Codes	Up to nine Land Use Codes may be entered or may be selected from a lookup
Bank Codes	Up to nine Bank Codes may be entered or may be selected from a lookup
Foreign Addresses Only	Radio button – Select Yes to only include addresses outside the United States; select No for all addresses both foreign and domestic.
Mail Returned Dates	Enter a Date Range to limit the list to only those records that indicate that mail was returned within that date range

Field Name	Description
Tax Title Code	The code may be entered directly or selected from a lookup. If no code is selected, all codes will be included in the file. 
Deferral Type	None/41A/18A – if the default selection of “None” is made, all deferral types will be included in the file.

The file may be viewed with Excel® or a text editor.

1.2. Posting Reports Now Have Up To 99 Versions [New]

Prior to the software update, only 30 versions of each posting report were being kept in the active folders before being over-written with new reports. Now, posting reports will have 99 versions before version #1 is over-written. This will allow staff to access a greater number of prior posting reports when reviewing information available on the reports.

2. E-MAIL TREASURY RECEIPT BATCH COVER SHEET [New]

The Collection Batch Entry screen has a **[3 Cover Sheet]** button that is used to print a Treasury Receipt Cover Sheet.

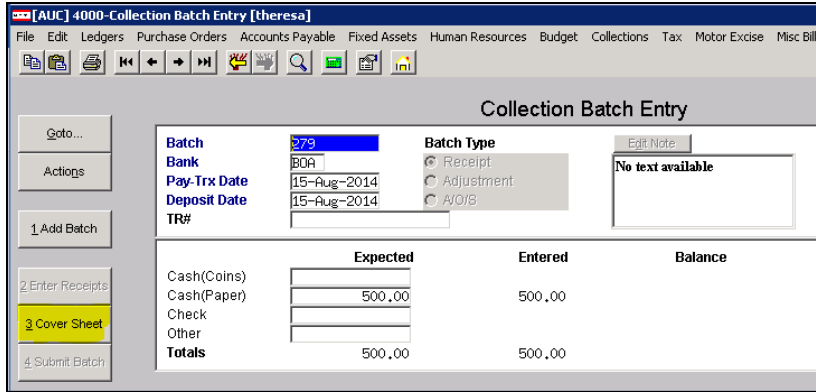

Figure 2 Collection Batch Entry Screen

Figure 3 Before – Cover sheet prompt only offered Preview/Print/PDF options

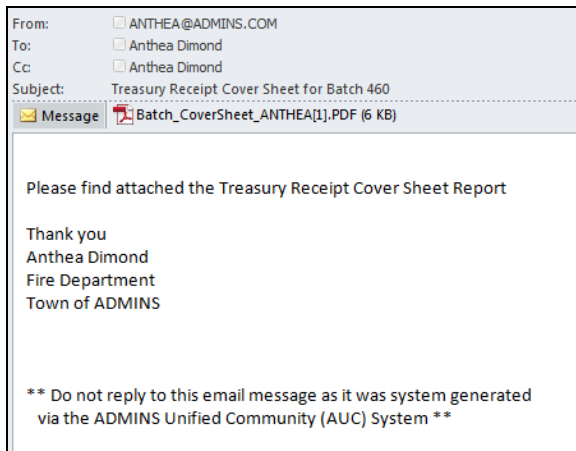

Figure 4 New Optional prompt will allow cover sheet to be sent to any valid E-mail address.

The **Treasury Receipt Cover Sheet** may now be E-mailed. This is optional; a PDF copy of the cover sheet will be sent to the email address entered in the prompt.

The **Treasury Receipt Cover Sheet** will still be displayed or printed in the customary manner (**Preview, Print or PDF**) depending on the selection made on the prompt. Users who are not co-located with the treasury office may find this helpful if they make receipt deposits directly to the bank.

3. QUICK REPORT SELECTOR [New]

ADMINS is pleased to announce a new system-wide feature available across all AUC modules.

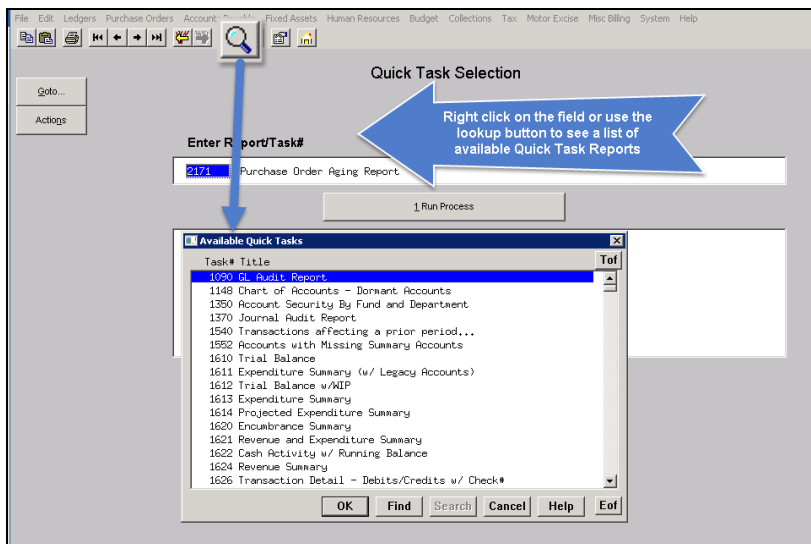

A new toolbar button has been added to AUC. This feature will allow a user to run any report in AUC quickly from any module rather than having to go to the report library for each module.

From any screen, click the  toolbar button and type in the report# as displayed on the top left hand corner of the report and click **Run Report**. For example, the 2171 report shown below was run in August.

2171-POPORAGERPT.REP		Aug-2017 at 12:46:34 by THERESA		Purchase Order Aging Report					Page 1
Detail Purchase Order Aging Report Sorted by Vendor Number									
PO#	PO Date	Vendor Name	Department	Under 30 Days	31-60 Days	61-90 Days	Over 90 Days	Total	
3202731	02-Jul-2015	000133 AAA MOBILE WAREHOUSING	1400				180.00	180.00	
Vendor Total							180.00	180.00	
3204969	15-Mar-2016	000222 ANDERSON MOTORS	1307				79.41	79.41	
Vendor Total							79.41	79.41	
3204038	16-Nov-2015	000306 ADMINS INC	1116				42,500.00	42,500.00	
3204491	12-Jan-2016	000306 ADMINS INC	1116				29,160.00	29,160.00	
3204492	12-Jan-2016	000306 ADMINS INC	1116				29,260.00	29,260.00	
3204493	12-Jan-2016	000306 ADMINS INC	1116				43,260.00	43,260.00	
Vendor Total							138,200.00	138,200.00	

To re-run the report, use the new button on the toolbar and type in 2171. If you do not know the report #, open a report lookup window by either a right-click of the mouse on the **Enter Report/Task #** field or by clicking on the magnifying glass lookup button to select a report. The name of the report will also be displayed to allow the user to confirm the selection. Click on the report and then click on the **[OK]** button.

This process checks if you have permission to run the report. If you don't have permission you will see the following message:

You dont have permission to run this process
Contact your system admin to grant you access or support@admins.com

4. NEW BUTTON TO SHOW “HIDDEN” REPORTS [New-V9.2]

Some users notified ADMINS that reports become “hidden” behind the screen. Other users reported that they are trying to do a bill re-print and get an error because they already have a bill re-print open. To show all reports open in AUC and maintain the security of a restricted desktop, a new button is introduced with this update.

The new Toolbar button will display a **View Open Windows** screen, and allow the user to select or close a report(s) or window.

- Select Process** Use your mouse to select the report/process you want to View/Close
- OK** Click **[OK]** to bring that process to the front & closes the **View Open Windows** screen
- Close** Click **[Close]** to close the selected process & close the **View Open Windows** screen
- Close All** Click **[Close All]** to close all open processes (the AUC application will remain open)
- Cancel** Click **[Cancel]** to exit the **View Open Windows** screen and do nothing

Once any selection is made, the **View Open Windows** screen will no longer be displayed. To re-display the View Open Windows list, click again on the new button. . *Note: This is only available to our ADMINS V9.2 Sites*

[ADM-AUC-SY-8022]

5. CRYSTAL REPORT TITLES UPDATED [New]

To allow users to identify which crystal report is listed in the **View Open Windows** screen described in section 4, titles were added to all crystal reports. This change may be noticed when displaying checks, bills and other reports in the **ADMINS Crystal Reports Viewer (AdmCrv)** window prior to printing. The upper right corner of the window will now show the report title and the **AdmCrv** text.

6. EMAIL USERS [New]

From **any** module, select **Module Maintenance** ► **Email Users**. This screen allows the entry of non-AUC user email addresses so that persons with a valid email address may receive reports from AUC.

The [1 Add User] button presents a prompt. Prior to the software update, the prompt asked for neither an email address nor an alternate email address.

Figure 7 Before

Figure 8 After—Optional Email Address Entry

Now, users may enter the email address via the new prompt, or enter the email addresses directly on the screen once the Username and Name have been added via the prompt.

Note: if entering an alternate email address in the prompt, the alternate will be selected for use. That may be changed by selecting the “No” radio button on the Email Users screen for that entry.

More information regarding this screen is available in the **Accounts Payable ▶ Help Reference Library ▶ AP-865 External E-mail Addresses.**

[ADM-AUC-SY-8028]

7. SCREEN DELAY [Fix]

Some sites with large data sets experienced a delay when viewing screens using scroll bars. The scroll bars were removed from multi-record screens to improve performance.
