## 1. SETTING DEFAULT PRINTERS [V9.2 SITES ONLY]

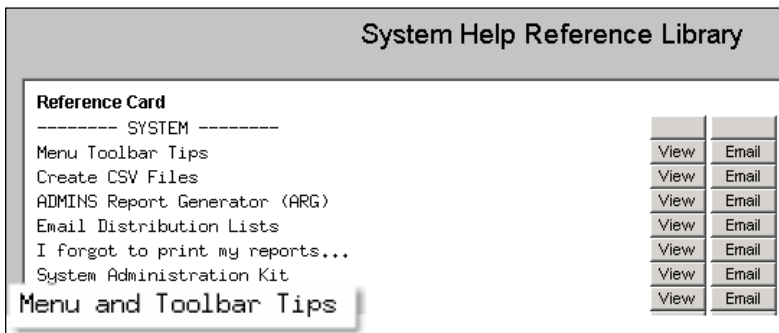

To allow AUC users to conveniently set their default printers, a new button has been added to all screens. Clicking this button lets the user select a default from a list of the **printers installed on the AUC server**. Find this button next to the **[Print]** button on the toolbar; click to display the available printers. Click on the desired printer and click on **[OK]** to set the default printer for use in your AUC session.

If you do not see this icon, then this option is not available on your site.
