Barcode Request form

V1-210623

Pine Rivers Orchid Society Inc. (PROS) will be using Barcodes for plant sales at our future shows. Barcodes will be provided free of charge to all financial members of PROS. **Note:** - the printing of barcodes is not free to the society so we are asking members not to abuse this privilege. Please try not to over order.

When ordering barcodes, work out approximately how many plants you will sell at one show at each dollar(\$) value and double it. That should give you enough for two shows. If you need more Barcodes for any \$ value, simply ask the PROS Secretary or Treasurer for another Barcode Request form if you do not have one.

If you intend selling at our next show, please complete the barcode form below so we can enter your details into a Barcode Database to provide barcodes for your sales plants. If you have been allocated barcodes from another society we will provide you with the same barcodes. These barcodes should work with any society that is in the Barcode Group; however, for cost reasons we strongly recommend that you order barcodes from PROS to use at our society's shows rather than using another society's barcodes.
