Dear Friends,

On behalf of all Delawareans, it is my pleasure to welcome you to Delaware for the 2023 Northeast Association of State Transportation Officials conference.

While you're here, I hope you will take the time to explore some of what our state and largest city have to offer. Market Street and the Riverfront are two of our most vibrant districts for dining, entertainment, and recreation. You will find excellent restaurants and interesting places to explore throughout the city and surrounding region – including at the historic Hotel DuPont, the Nemours Estate, and Winterthur.

As Governor, I have made traffic safety a top priority and have relied heavily on the Delaware Department of Transportation to meet that goal. I am grateful for our talented team of transportation professionals and know you each play a similar role in your own states. Please accept my sincere gratitude for your commitment to the safety of your communities.

Thank you again for the important work you do to keep your states, and by extension our country, running smoothly. I offer my best wishes for a productive meeting and hope you enjoy your stay in the First State.

Sincerely,

A handwritten signature in black ink that reads "John C. Carney".

KEYNOTE SPEAKER

THE POWER OF FUN!

Tuesday, July 11

Dave Raymond pioneered the field of sports mascots as the first person to go out on the field as the world-renowned Phillie Phanatic.

Leveraging the unique lessons he learned from the inside out (*literally!*), Dave made a seamless transition into the world of character branding and mascot development. Raymond has dedicated his life to studying methods that lead to long-term sustainable happiness. His work is focused on The Power of Fun and asks the question; **how can fun save your life?** Dave will share how his time as the Phanatic revealed to him fun's transformative effects as the key to living a content, healthier and more productive life. While others have studied how to unlock the power of fun, Dave actually lived it. Now, he shares his simple-to-implement F.U.N. process for creating sustainable, long-lasting happiness—and building the life of your dreams.
