# FB4K/Reborn Bikes 2023 Highlights

## **Reborn Bikes was formally created**

We were formed as a regional collective/administrative hub to better serve the Western State Region.. Reborn Bikes is currently comprised of: WashCo Bikes, FB4K Portland, Bikeworks:Pear, Front Street Bikes, Orca Bikes, Bend Bikes and WTA

## **On Track to distribute 6,500 bikes by year end**

We've expanded relationships and extended outreach events to put refurbished bikes into the hands of more youth, refugees and underprivileged families than ever before!

## **We are rescuing 100-150 bikes per week from landfills**

This year we solidified a partnership with the Oregon City Metro Transfer Station to rescue bikes and have plans to secure necessary funding to expand this program to two additional sites in 2024.

## **Trek Bike Program Expansion**

We expanded this natural partner program to include a spot on our Board of Directors, an annual fundraising bike ride event and exclusive pick of their trade-in bikes amounting to approximately 1,200 bikes annually..

## **Remarkable Lease Negotiations for warehouse spaces**

We successfully negotiated donated or minimal costs warehouse spaces in North Portland, Wilsonville, West Linn, Forest Grove and on campus at Nike.

**It's been an incredible year and we are well poised to serve our rapidly increasing numbers of kids and adults who need bikes!**
