- Customize the saying to suit you - Mom's Quilt Haven, a short phrase
- Font Details
 - Starry Nights font requires manual spacing and positioning due to its flourishes. Align it so your are pleased with the layout.(alignment, spacing, and rotation)You may want to demo software here, bringing the font in via a font importer.
 - Put one word per text box whether using software or machine capabilities. It will make it easier to get the words positioned where you want.
 - Princess Sophie shows the font at full size.
 - Second Right has had the "to" and "the" reduced to 90% of full size and the print font is Wellington.
