INTERNATIONAL INDUSTRIAL CHEMICAL PARK

About the company 1

Who we are?

- ❖ Chemical manufacturing Company
- ❖ Our location in Borg El Arab – Alexandria, Egypt.
- ❖ Pioneer manufacturer of Chlorinated Paraffins (CPs) in the Middle East.
- ❖ Present annual capacity is **15 000** tonnes CPs.

International Industrial Chemical Park S.A.E.

P.O. Box No. 103 - New Borg Al-Arab City - Alexandria – Egypt

ISO 45001:2018

INTERNATIONAL INDUSTRIAL CHEMICAL PARK

About the company 2

- ❖ In 2006, IICP has built a state-of-the-art factory.
- ❖ Constructed to exacting European standards
- ❖ The production moved to a fully automated system in July of 2010.

About the company 3

Our production serves the local & international market :

- ❖ Beside our local Market, IICP supplies Middle East & Europe.

Our Products

Our Products :

- I. PolyChlor : Chlorinated Paraffin (40-63)% chlorine content based on medium chain length (C14-C17) paraffin.

- II. HydroChlor : Hydrochloric Acid 30-32%.

- III. CalChlor : Calcium chloride aqueous Solution 32 - 42%.

- IV. HypoChlor : Sodium Hypochlorite (12-14 %)

INTERNATIONAL INDUSTRIAL CHEMICAL PARK

Our products I - PolyChlor 1

I- PolyChlor

Advantages :

- Low cost
- Excellent fire-retardant ,
- Compatibility with polymers & primary plasticizers
- Non-toxic
- Low volatility
- Chemically inert
- Excellent resistance to water
- Good low temperature performance

Major applications:

Plasticizer, PVC, Flame-retardant & Lubricants additives

International Industrial Chemical Park S.A.E.

ISO 14001:2015

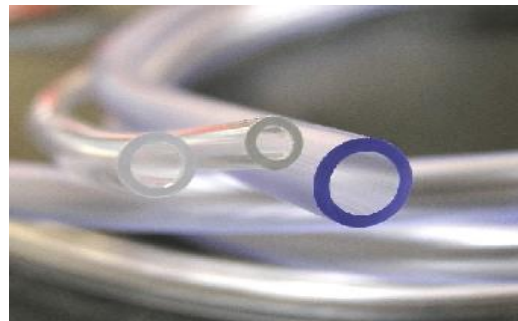

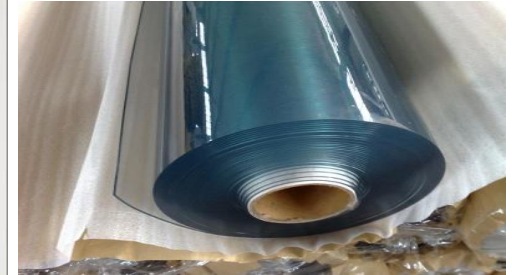

ISO 45001:2018

INTERNATIONAL INDUSTRIAL CHEMICAL PARK

Our products I - PolyChlor 2

- ❖ PolyChlor is used as a plasticizer in conjunction with primary plasticizers such as certain Phthalates in flexible PVC.
- ❖ PVC films, flexible pipes, hoses , suction pipes etc ...

International Industrial Chemical Park S.A.E.

INTERNATIONAL INDUSTRIAL CHEMICAL PARK

Our products I - PolyChlor 3

Flame retardant in :

- ❖ PVC flooring, cables , wires, industrial belts, Footwears, artificial leather etc...
- ❖ rubber gasketing & rubber belts

International Industrial Chemical Park S.A.E.

ISO 9001:2015

ISO 14001:2015

ISO 45001:2018

INTERNATIONAL INDUSTRIAL CHEMICAL PARK

Our products I - PolyChlor 4

- ❖ Plasticizers in paint, coatings, adhesives, PU and other sealants where the main advantages over alternatives are their inertness and the enhancement of flame-retardant properties.

IICP

Our products I - PolyChlor 5

- ❖ Most effective extreme pressure additives for lubricants used in a wide range of machining and engineering operations.

- ❖ In carbonless copy paper detergents, inks, solvent for Dichloramine T (germicide), and other miscellaneous products...

ISO 45001:2018

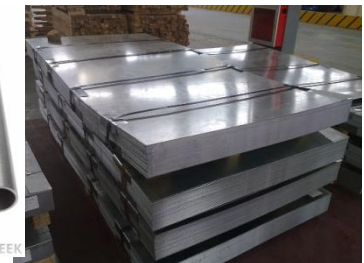

INTERNATIONAL INDUSTRIAL CHEMICAL PARK

II- HydroChlor

Major applications:

- ❖ Petrochemical industries - acidizing and cleaning.
- ❖ Water treatment - the demineralization of water and the adjustment of PH.
- ❖ Wastewater - the treatment of effluent and the adjustment of PH.
- ❖ Steel production and galvanization – the treatment and cleaning of steel surfaces, including wire, bars and sheet products .

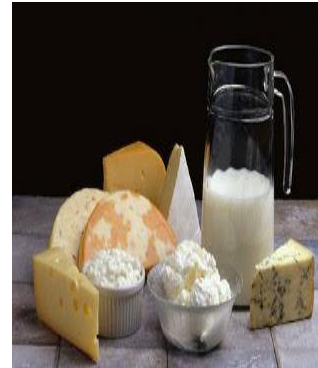

INTERNATIONAL INDUSTRIAL CHEMICAL PARK

Our products II - HydroChlor 2

- ❖ Pharmaceutical production
- ❖ Foodstuffs and animal feed –
the manufacture and
modification of gelatin, Casein
and starch
- ❖ Synthetic rubber production
- ❖ Many diverse uses within
chemical processing

ISO 45001:2018

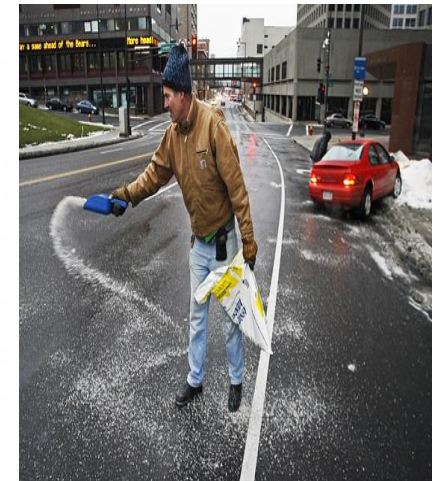

INTERNATIONAL INDUSTRIAL CHEMICAL PARK

Our products III - CalChlor 1

III- CalChlor

Major applications:

- ❖ Roadways - as a dust-suppressant and stabilizer on gravel and sand roadways and construction sites
- ❖ Wastewater - to remove fluoride
- ❖ Drilling - as a well completion fluid when drilling muds
- ❖ Tires - to provide additional ballast within road tires
- ❖ De-icing - as a pre-wetting agent for de-icing salts
- ❖ Chemical processing

ISO 45001:2018

INTERNATIONAL INDUSTRIAL CHEMICAL PARK

IV- HypoChlor

Major applications:

- ❖ Textile manufacturing - as a bleaching agent
- ❖ Pulp and paper industries - as a bleaching agent
- ❖ Paper recycling
- ❖ Potable water treatment - as a disinfecting agent
- ❖ Wastewater processing - as odor control and as a disinfectant
- ❖ Swimming pools - as a sterilizing agent
- ❖ Process and cooling water treatment plants as a disinfecting agent
- ❖ Many diverse uses in the production of chemical intermediaries
