

Gold Marc International
PROPERTY SOLUTIONS

Who We Are

Our Team is comprised of Realtors, Financial Accountants, Affiliate Developers, Engineers and Construction Managers, who have all pooled their expertise together into forming Gold Marc International Property Solutions.

We know the average Residential and Commercial property investor struggles with receiving reliable and efficient investment information, whether it pertains to property market value, engineering advice, logistical and onsite support and other critical information needed for making prudent investment decisions.

With 25 years of experience in the Construction and Engineering Industries we are sure to ease your fears in Investing in Belize by bringing to you an extensive outlook on the properties nested in our Jewel.

Our company provides a wide range of services in the Property Solutions Industry, whether it's Real Estate, Property Management, Investment or Land Issues, we are here to assist you.

At GMI our products are checked, tested and evaluated by our in-house registered engineer. The Engineer's Valuation Report is then formulized with our in-house market analysis system, coupled with client's expectations to create the best value for your investment.
