

The Uncivil Society - Movie of My Mind

The Uncivil Society in association with Suburban Utopia Projects presents “Movie of My Mind”. For the eighteenth project released by Anon\_73, this project combines short film with an instrumental movie soundtrack.

Movie of My Mind was inspired by Andy Warhol’s films made in the Factory and the feature length film Koyaanisqatsi: Life Out of Balance. The soundtrack was inspired by the movie scores of Hans Zimmer, Danny Elfman and the thunderous drum fills of Hal Blane.
