

Southeast Soccer will be offering training opportunities this summer for speed of play and striking/finishing training with Coach Mitchell Crispin. Coach Crispin is a two-time all Heartland Conference first team forward and career leading goal scorer for regional and nation program Darlington School Soccer Academy.

He will be offering individual hour sessions starting at \$20 an hour for individual trainings or groups for \$10 and hour. The program will start with speed of play, ball skill training, and move into progressively more advanced shooting mechanics.

Speed of play training is designed to improve first touch, awareness, individual ball control, and overall improvement in pace of play. Shooting sessions will aim to develop attacking player mindsets and are designed to train finishing technique. The game of soccer is not nicknamed the beautiful game for nothing. These training sessions are designed to build on the beauty of soccer and build up local players skills.
