Aviation Workshop Updates

NEW ARRIVAL

Custom Air Craft LLC is proud to announce the arrival of our latest addition, the AK1-3 Sanka helicopter. We are excited to showcase this innovative and high-performance aircraft at the upcoming SUN 'n FUN Aerospace Expo in Lakeland, Florida, from March 28th to April 2nd, 2023. Visit us at Booth LP-38.

THE AK1-3 SANKA

Our team has been eagerly anticipating the delivery of the AK1-3 Sanka helicopter, and we cannot wait to take it down to the expo to show it off to aviation enthusiasts and professionals alike. We are confident that the Sanka will turn heads and impress everyone who sees it.

ABOUT THE SANKA

For those who are not familiar with the AK1-3 Sanka helicopter, it is a state-of-the-art aircraft designed for fast, comfortable, and safe travel. The Sanka is capable of flying at high speeds, making it an excellent option for those who need to get from point A to point B quickly. Additionally, the Sanka is designed with passenger comfort in mind, featuring a spacious and luxurious cabin that can accommodate two passengers. Large windows provide excellent visibility in all directions. Leather seating is standard. This makes it the perfect private helicopter.

SCHEDULE A TEST RIDE

We will soon be conducting test rides at the New Garden Airport located in Pennsylvania. The airport is only 15 minutes from our workshop in northern Delaware. We will keep you updated when we begin scheduling test rides.
