

## Medical Information

If your child has an allergy or medical condition, we must have form JFS 01236 (Child Medical/Physical Care Plan for Child Care) on file. All boxes of this form must be completed.

If your child has an allergy, we must have an IRP Allergy Release form on file.

If your child requires emergency medication to be kept at preschool:

- The medication must be in its original container with the prescription label attached. The label must include child's full name and dosage instructions.
- Over-the-counter medication must be in its original package with dosage instruction visible, child's full name written on package, and make sure the dosage states that it is allowable for child's current age/weight.
- Be sure the medication name written by your doctor on page 2 of JFS 01236 matches exactly with the medication you bring in.
- The medication has not expired.
- The date on the prescription label must be within the last 12 months.
- Parent will review and train staff as needed on medication and care plan, including required signatures.
