

MAIN WORKFLOW FOR MSP RAPID™ ADMS SUITE

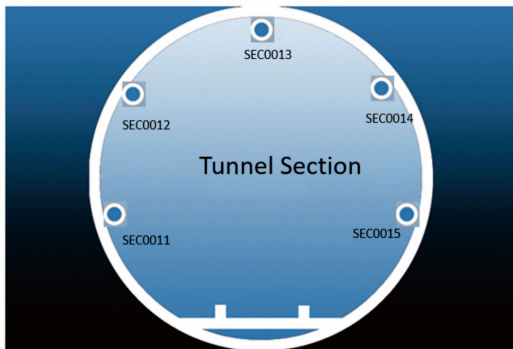

WEB PORTAL (REPORT)

MSP RAPID™ CONVERGENCE

Section Layout

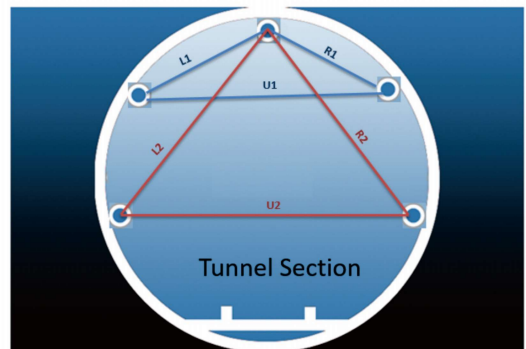

Section 1: SEC001

- Prism are installed in the Tunnel Sections
- Minimum of 5 prisms should be installed per Section

Section Layout

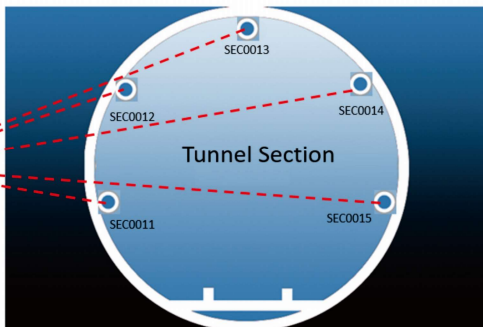

Section 1: SEC001

The installed prisms are then connected by lines and creating 2 triangles
RAPID Convergence calculates the measurement between the connecting lines of the prisms

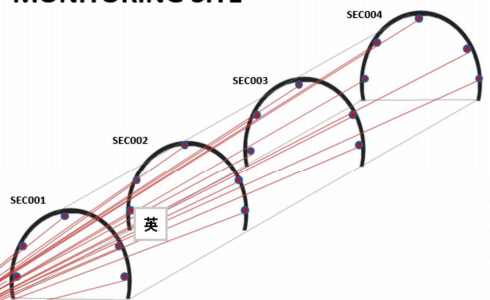

MONITORING SITE

Section 1: SEC001

Total Station will take measurement of the prisms from the lower left to right or from Prism 1 – 5 of the section

MONITORING SITE

Convergence will take measurement for all the sections
