FRESH COOP ODOR CONTROL

ACTIVATED BARN FRESH CHICKEN COOP ODOR CONTROL & NEUTRALIZER

The original odor control product for backyard chickens.

Activated Barn Fresh Coop Odor Control minimizes the conversion of ammonium to ammonia by acidifying the poultry litter, with the help of a proper balance of citric acid and our naturally occurring blend of Diatomaceous Earth and Calcium Montmorillonite. This acidity also inhibits the activities of bacteria and enzymes that are involved in the formation of ammonia, reducing ammonia production. Finally, the natural absorption capabilities of our diatomaceous earth blend help to keep your coop clean and dry!

Available in: 3.18 kg jug with shaker lid, 9.07 kg resealable bag.
