And the purchaser _____

This agreement is dated from today _____

The agreed to kitten is described as follow

Pedigree name _____

Sex _____ Colour _____

DOB _____ Breed _____

Sire _____

Dam _____

Term of insurance _____

The Seller guarantees that the Kitten/Cat is a purebred and eligible for registration in the International Cat Association {TICA} or the New Zealand Cat Fancy {NZCF}

The Seller guarantees to have the Kitten/Cat health checked by a registered veterinarian prior to collection and will supply the Purchaser with a copy of this report.

PURCHASER AGREES TO THE FOLLOWING [Please initial each one]

By initialling the below terms the purchaser agrees to abide by them.

All sales are final. No returns, refunds or exchanges except what is outlined by the terms of this sale.

The Kitten shall not be sold, leased or rehomed unless all the conditions of this agreement are met.

If for any reason at any time you do not want the Kitten you can return to the Seller free of charge.

THE KITTEN IS SOLD AS A PET ONLY. The Purchaser is to spay/neuter this Kitten by the time the Kitten reaches 5 months of age. The Seller will give the Purchaser the Kittens registration papers upon proof of spay/neuter from a licensed veterinarian. Failure to provide proof will result in the forfeiture of registration papers and the purchaser will pay the seller \$4,000.

It is the Purchaser's responsibility to ensure this Kitten does not get pregnant and any signs of coming into season earlier than 5 months the Purchaser will immediately have this Kitten neutered.

If a male Kitten starts to spray prior to 5 months the Purchaser will immediately have this Kitten spayed.

The Purchaser is responsible for completing and submitting the registration papers.

The Seller makes no guarantees as to the Kittens temperament. We pride ourselves on socializing our kittens, but we cannot predict how the Kitten will act after it leaves the familiar environment of our home and its littermates. It is the Purchaser's responsibility to slowly transition the Kitten to its new home. Purchaser acknowledges that some kittens may take longer than others to adjust to their new surroundings. We encourage the Purchaser to notify the Seller of any concerns within 2 weeks of taking the kitten/cat home. If the Purchaser does not notify the Seller within this time then Seller disclaims any liability of responsibility for these issues.

The Purchaser acknowledges that if they change the Kitten/cats diet this may result in diarrhoea. It is the Purchasers responsibility to ensure the health of the Kitten/cat is looked after once it leaves the Sellers premises. We feed a diet of raw meat such as venison, rabbit and beef with purena dry food with plenty of fresh water available.

The Kitten/cat will have had their first vaccination a flea and a worm treatment before rehoming. It is the Purchaser responsibility to ensure the Kitten/cat continues to have their vaccinations and treatments as prescribed by the Purchaser's veterinarian.

Both parties agree that any disputes/issues related to but not limited to the Kitten's health and to this contractual relationship are a private matter between the Seller and Purchaser. Issues shall not be aired in a public and/or online forum including but not limited to facebook, twitter, Instagram unless prior written consent has been obtained from the other party. Any violation of this clause shall result in an agreed upon damages of \$10,000.00 payable. This sale is final and there are no cash refunds.

HEALTH AGREEMENT

The Seller warrants that the Kitten/cat is sold in good health at the time the Kitten leaves the Sellers premises. Any freight transport that is required to deliver the Kitten is at the Purchaser expense. The Seller advises the Purchaser to take insurance as once the kitten leaves the Sellers premises the Kitten becomes the Purchaser's responsibility.

The Seller warrants that the Kitten has had a physical examination by the Sellers veterinarian prior to the Kitten leaving the Seller [including, but not limited to an eye exam, ear exam, auscultation] and that the Seller is not aware of any health issues [including, but not limited to upper respiratory infections, diarrhoea] at the time the Kitten leaves the Sellers premises. The Seller will supply a copy of the registered veterinarian health certificate to the Purchaser. The Seller encourages the Purchaser to have their own veterinarian examine the Kitten/cat within 72 hrs of arrival. Any medical issues are to be in writing by the examining vet and emailed to the seller. The kitten can not be returned if it has been exposed to another kitten/cat which has not been currently tested for FeLV and FIV. There is no guaranteed against FIP. Return shipping-related expenses are the responsibility of the Purchaser. The Seller agrees to either replace the kitten or refund the purchase price if the kitten/cat develops a hereditary condition within 12months of purchase. The Veterinary expenses incurred by each party shall be there own to bare.

There are no guarantees against FIP in this agreement. It is the Purchasers choice to vaccinate this Kitten against FIP (Feline Infectious Peritonitis). The effectiveness of the vaccine has not been established and the vaccine can cause the disease.

This agreement does not cover the death of the Kitten from FIPV, [feline Infectious Peritonitis virus], a mutated form of the Feline Coronavirus {FCoV}, if this Kitten dies of FIPV it will not be replaced. No Exceptions! We have no control of/over this virus.

This agreement does not cover coccidia outbreaks. When a kitten goes into its new home, this can sometimes result in diarrhea/loose stools a few days after arrival. This is typically caused by the parasite coccidian or a change in diet. This is not a congenital problem. If your Kitten has loose stools, we recommend that you consult your veterinarian.

This Kitten is guaranteed against congenital defects inherited by the parents and HCM for the first 12 months from the purchase date of the Kitten. Should the cat die as a direct result of a congenital defect or HCM, the cat will be replaced ONLY! Seller shall replace as soon as one is available that the Purchaser wishes to choose. The Purchaser must provide the veterinarian or specialist's written report, confirming, in writing, that in their opinion, the cat has a congenital defect.

Multi-cat households: This agreement only covers the health of this Kitten. If the Purchaser has a multi-cat / multi- pet household, or the Kitten is not kept from roaming and your other pets come down with health issues after the Kitten is introduced, the Seller, is not responsible for any veterinary expenses for your other feline(s) and pets, as we are not responsible for their health. Similarly, if the Kitten comes down with health issue(s) after its introduction to the multi-pet household, we will be responsible only if your vet certifies, in writing, that the Kitten's health issues are congenital issues. It is the Purchaser's responsibility to ensure that existing felines are up to date on all vaccinations and have been regularly checked by your veterinarian prior to introducing them to the Kitten. It is the Purchaser's responsibility to quarantine Kitten for at least fourteen (14) days of receiving the Kitten, if the Kitten is going to a multi-pet household. Unless otherwise agreed to by the Seller, in writing, this provision of isolating the Kitten for at least 14 days is a strict requirement and Purchaser will void all health guarantees under this contract if the Kitten is not isolated for at least 14 days.
