Bethany Kadun

I was born is Alaska and raised in a Christian home. I accepted Christ into my heart at four years old but it wasn't until my first year at college that I really made my faith my own. In 2005 I started at Prairie Bible College in the aviation program. It was there that I realized that there was no better plan for my life than to live for God wherever that may be. While a student I met Ryan Kadun, who was also a student in the aviation program. In 2009 we were married and then in 2010 I graduated with an associate's degree in mission aviation. Less than a year later God blessed me with the opportunity to be a flight instructor at Prairie. It is both mine and Ryan's goal to follow God's will for our lives. At this time in our lives it is working in Three Hills, Alberta. Where we will be down the road neither of us knows but we are excited for the adventure we know God is taking us on.
