## Who We Are

The Association of Early Learning Coalitions (AELC) supports the role of Florida's 30 Early Learning Coalitions (ELCs) to develop and administer a comprehensive system of early care and education that supports families and prepares young children to succeed in school and in life.

The AELC's main priority is to advocate for continued investment in early learning by informing policy makers and the public about the benefits of early education and the importance of preserving parental choice and access for Florida's youngest learners.

## Mission

To strengthen Florida's early learning system through innovation, leadership and advocacy.

## Vision

Florida's children are supported in a community dedicated to ensuring they reach their full potential.

## Primary Goal

Prioritize Florida's youngest learners by providing access to a quality education that promotes Kindergarten readiness and allows families to enter and thrive in the workforce with a clear path toward upward mobility and long-term economic self-sufficiency.
