| Specs: | Dimensions: 3.6 inches/9.1 cm (L) x 3 inches/7.6 cm (Diam) Wt. 2.4 lbs |

Product Description

The Under the Sink Unit is a wonderful structuring device for the kitchen, bathroom, or workroom designed to be installed under the sink and produce delicious, energized tap water. This structured water can be used to wash your hands or the dishes, cook with or make enjoyable beverages, or simply enjoy a tall, cool drink of tasty water. Here's to your health!

About Your Under Sink Unit

With an Under The Sink product, you will enjoy drinking and cooking with water that is balanced and hydrating. You can add an Under The Sink product to any filter system you have to improve your drinking water. Your body will feel the difference.

Benefits

1. Soft healthy skin and hair
2. More moisture for skin and hair
3. Eliminates itchy skin from chlorinated water
4. No hard water build-up in shower
5. All memory held in water is wiped clean
6. Water that is alive and full of energy
7. Greater sense of well being
8. Source of negative ions.

IMPORTANT

For sink use, the unit is installed between the faucet and the 3/8' angle/straight stop valve for the cold water line. You thereby have highly energized Structured Water directly from the faucet. Instructions and required plumbing parts (pre-taped) are included with purchase. The unit can be used on any system that has water lines sized .5 inch and under; such as between the garden hose bib and hose, hot tub circulating system, RV water system, aquarium/fish tank, refrigerator water dispenser and ice maker, water fountain, irrigation lines and bus holding tanks.

Carefree Ease of Use

Under the Sink

The Under the Sink Unit is a wonderful structuring device for the kitchen, bathroom, or workroom designed to be installed under the sink and produce delicious, energized tap water. This structured water can be used to wash your hands or the dishes, cook with or make enjoyable beverages, or simply enjoy a tall, cool drink of tasty water. Here's to your health!

Important Notes About Your Under Sink Unit

1. **Cleaning Unit:** Normal inline operation will continuously clean the unit. However, one can also clean by soaking the unit in a bath of water and apple cider vinegar, hot tap water, or running through the dishwasher.
 2. **Storing Unit:** The Under The Sink Unit can be drained and stored in either direction, i.e., spout up or spout down, or sideways once dry.
 3. **Warranty:** This unit comes with 9 Year Warranty against manufacturer defects. Misuse of the unit is not covered.
 4. **Avoid leaving this unit in freezing temperatures with residual water inside as impaired function may result.**
 5. **Avoid dropping this unit as it may result in impaired function.**
 6. **If a unit is buried in dirt, any brass fittings must be covered or sealed from the dirt, as nature will break down the brass. Cover with several wraps of duct tape or other weatherproof wrap.**
-

Installation Notes - IMPORTANT!

*** Note: These units have a **Flow Direction**. **Output** side of the unit is indicated to the **(right) side of the unit label**. **Input** side is indicated to the left of the Symbol, on the **(left) side of the unit label**. **Recommend installation on Cold Water Line.**

All install-able products are engineered for simple installation with standard plumbing parts.

We recommend that you call a licensed plumber or qualified handyman.
