Fruit Name	Flesh color	Skin color	Fruit size	Harvest Times	Grower's Comments
<a href="#">Click name to Grower's Site</a>					<a href="#">How to Grow Peaches - Courtesy Rutgers</a>
<a href="#">Babcock</a>	White	Yellow with blush of red	Medium	Early season.	Long-time favorite white-fleshed freestone. Sweet and juicy, aromatic, low in acid. High scoring in taste tests. Widely adapted (low chill requirement, yet not early blooming).
<a href="#">Elberta</a>	Yellow	Golden yellow fruit blushed with red	Large	Midseason	Famous yellow freestone. Classic, rich peach flavor: high scoring in taste tests. Use fresh, canned or cooked. Ripe late July/early August in Central California, up to 3-4 weeks later in colder climates.
<a href="#">Frost</a>	Yellow	red-blushed yellow skin	Medium	Midseason to late season	Resistant to peach leaf curl (10-year trials at Washington State University). Delicious yellow freestone. Slight red blush over greenish-yellow to yellow skin. Heavy bearing, excellent for canning or eating fresh. Showy pink bloom in spring.
<a href="#">Nectar</a>	White	pink to red blush	Medium to large	Midseason	One of the finest white peaches. Medium to large fruit with dark pink blush over a beautiful cream to pale green background. White freestone flesh, tinged with red, is sweet with exceptional flavor and aroma. Originated in Bakersfield, CA, introduced in 1935.
<a href="#">O'Henry</a>	Yellow	red-blushed yellow skin	Large	Midseason	Popular fresh market yellow freestone and an excellent choice for home planting. Large, firm, full red skin, superb flavor. In Central Calif., harvest begins as Elberta is ending. Good for freezing. Strong, vigorous, heavy bearing tree.
<a href="#">Red Baron</a>	Yellow	yellow skin	Large	Midseason to late season	Flowering/fruitlet. Large, juicy, firm, richly flavored yellow freestone fruit. Highly rated in taste tests. Showy double red blossoms.
<a href="#">Red Haven</a>	Yellow	Golden-yellow skin with red blush	Medium	Early to Midseason	Most widely planted peach. Non-browning, sweet yellow flesh is firm and smooth textured. Excellent for canning, freezing, and fresh eating. Redhaven is the standard by which all early peaches are judged. The tree is vigorous and early bearing
<a href="#">Rio Oso Gem</a>	Yellow	bright red skin	Large	Midseason to late season	Favorite late yellow freestone. Large, sweet, rich flavor, like J.H. Hale. Fresh/freeze. Small tree. Showy bloom Excellent for eating fresh, Desserts / Pies, Canning
<a href="#">Donut - Stark Saturn</a>	White	white skin with red blush	Medium	Early season	Also called Saucer or Peento Peach. Unique white-fleshed fruit with a sunken center (shaped like a doughnut). Sweet, with a mild flavor described by some as almond-like.
