

TIRE SEALANTS

Sealitup Premium Heavy Duty

(603R)

- Specifically designed for large tires on heavy-duty equipment, and can be used in other tire applications
- Permanently seals injuries up to 3/8" with virtually no loss of air pressure
- 5 man-made fibers for added thixotropic properties
- Eliminates rim, vent, and pinhole leaks
- No separation - stays in suspension
- Saves casings for recapping
- Prevents and eliminates rust
- Keeps tires running cooler
- Works to -10° F (-23° C)
- Increases tread and tire life
- Easily washes out with water
- No flammable components

Sealitup Premium Heavy Duty Cold Weather

(605R)

All of the same outstanding features of Sealitup Premium Heavy Duty plus protects to -25° F (-32° C)

- Specifically designed to work in extreme conditions:
 - when a large number of punctures are expected
 - in extreme temperature ranges, either hot or cold
- Contains large amounts of Kevlar-type fibers and crumb rubber
- Permanently seals injuries up to 3/8" with virtually no loss of air pressure

Available in 32 oz. bottles, 1 and 5 gal buckets, 55 gal drums, and 275 and 330 totes.
For use in steel wheels only
