The use of high grade stainless steel has the dual benefits of reducing wear to a minimum and guaranteeing long-lasting sharpness. Inox-rusting metallic instruments are free of nickel, anti-allergenic and can be sterilised. This interplay and the intensive cooperation with leading dermatologists guarantees uniform, high quality levels for these kind-to-the-skin instruments and care products.

All of our products are made of high grade steel. **Grade 410:** the basic martensitic stainless steel: like most non-stainless steel it can be hardened by a "quench-and-temper" heat treatment. It contains a minimum of 11.5 per cent chromium. **Grade 420:** a higher carbon version of 410: like most non-stainless steel it can be hardened by heat treatment. It contains a minimum of 12 per cent chromium, just sufficient to give corrosion

**Polish / Shine Finish**  
These instruments feature high grade and highly attractive Shinning Surface Finish.

**Stain / Matt Finish**  
These instruments feature high standard for professional use.

**Half or Full Gold Plating  
On Polish Finish**  
24 carot hard platted  
instruments have an extra  
high quality appearance.

**Half or Full Sand Blasted  
On Polish Finish**  
These instruments give  
timeless surface appearance.

**Half or Full Powder Color  
Coated On Polish Finish**  
These instruments give  
uniquely attractive look by  
using different color  
combinations.

## Nail & Cuticle Scissors

Made of hot forged special steel, hardened and precisely ground. Bent, thin and extremely sharp cutting edge for careful and easy removal of fine nail and cuticle.

Our nail scissors cut nails without crushing or splitting them.

Our cuticle scissors cut even the finest cuticles with perfect precision.

Brilliant quality, excellent functionality and dependably long-lasting.

All nail and cuticle scissors made by Trimax have been carefully hand honed and individually tested.

Men's  
collection

Made of hot forged special steel, long handles. Designed for special tasks and unusual solutions. Functionality at its best.

Hardened cutting edges. Gently and quickly cuts nails due to lever action. We guarantee our facial products to be of the highest quality.

We use only the finest stainless steel in our facial supplies. They're used by professional aestheticians and dermatologist, and will not rust when disinfecting.

It doesn't matter whether you have oily skin, dry skin, or sensitive skin; we have the tools you need for the results you will love.

# Cuticle Nippers

Strong and precise instrument for clean removal of the cuticle and residual skin even in the corners and round edges of the nail bed.

Various cutting lengths available for different cutting habits.

Apart from leaf springs, scissors handles are also available.

As with cuticle scissors, cuticle nippers also have the speciality of the "honed jaw". Its finely ground, highly polished and sharpened blades allows the cutting of cuticles, which offers a very special comfort in working cuticles.

Available in lap joint / box joint and different sizes of cutting edge.

Nail nippers

Instruments for easy shortening and forming strong finger & toe nails.

The different sizes and cutting head forms demonstrate the broad range of manicure or pedicure applications.

There are two different joints available. Lap joint nippers have the nipper shanks lying one on top of the other at the joint. Box joint nippers have one shank put through the other nippers shank.

While one can cut and form the finger nails according to desire and fashion, it is recommended to cut and form toe nails relatively short and straight. Toe nails should not reach over the end of the toes.

## Tweezers

Available for various purposes and are made out of a variety of materials in different designs.

### Types of tweezers:

-  Pointed:  
to remove splinters.
-  Slanted:  
to shape eyebrows or to remove hair.
-  Straight:  
to shape eyebrows or to remove hair.
-  Bent or angular with a straight mouth:  
exerts a particularly high pressure due to its angular shank and has a very firm grip.
-  Round:  
safe grip no sharp edges, special tweezers for safe round edge.

All tweezers are carefully produced, particularly on the functional part with the inner sides being ground to grip hair. It is made sure that the shanks of a pair of tweezers are of the same length.

# Instruments for professional applications

Manicure made easy - with well-functioning instruments  
 Manicure, pedicure - perfectly functioning instruments are required for these personal hygiene tasks

Professional application products by TRIMAX are characterized by:

- good raw materials
- excellent workmanship
- high functionality
- durability
- large selection

There is a broad range of TRIMAX manicure instruments available, a large selection made of various raw materials, in various sizes and for the most varied functions. All these instruments are characterized by their outstanding workmanship, making them distinctly durable and highly functional.

Size 15cm

MJW-5356-130  
Hair shaper  
Size 13cm

For professional hairdressers, or for anyone who wants a professional looking haircut at home, we offer a large selection of haircutting shears, thinning shears, and other hair-care supplies at a fraction of what you would spend at a salon.

All haircutting scissors and accessories are top-of-the-line. We have a wide range of shears, from professional to the economical Starlight Shears.

Our innovative haircutting shears are designed for cutting performance and comfort. The convex blades allow for clean cuts with superb precision. Extremely sharp hollow-ground blades made of Stainless Steel provide guaranteed quality and durability.

Our haircutting scissors are great for gift giving, and they pay for themselves after just a few uses.
