SAPIENTS ELECTRO MECHANICAL CONTRACTING

Preface

SAPIENTS Electro Mechanical Contracting company, a premium engineering contractor based in UAE established in 2012 by a group of mechanical industrial construction experts in UAE. We maintain our strength on building a truthful and confident relationship with our clients through our excellent performance and integrity. We servewith the required skill, expertise andresources essential to meet the demands of today’s fast track projects. specifically, in the industrialsector, Petro Chemical, Oil & Gas, Pharmaceutical, Dairy Boiler Piping, HVAC etc.

To achieve our goals, we are expanding our activities in order toprovide solutions for the complex projects of our clients that require sincere commitment and professionalism.

Mission

Sapients carries out mechanical construction of diversified projects on a EPC basis forelectrical and mechanical installation, operation and maintenance of commercial and industrial buildings and plants including but not limited to Oil & Gas, Marine, Petrochemical, FMCG industries, other industries, chilled water systems. With our operation spread across multiple locations in UAE, we bring in an assortment of professional services in the field of engineering design, fabrication, construction and management services and ensures that our esteemed clients benefits from our comprehensive solutions

The company's competitive advantage is maintained

Manage for operational excellence by diligently implementing best practices,maintaining international standards in the quality, safe working practices andimproving productivity.

Maintain friendly attitude, be proactive socially and provide active support to thecommunity.

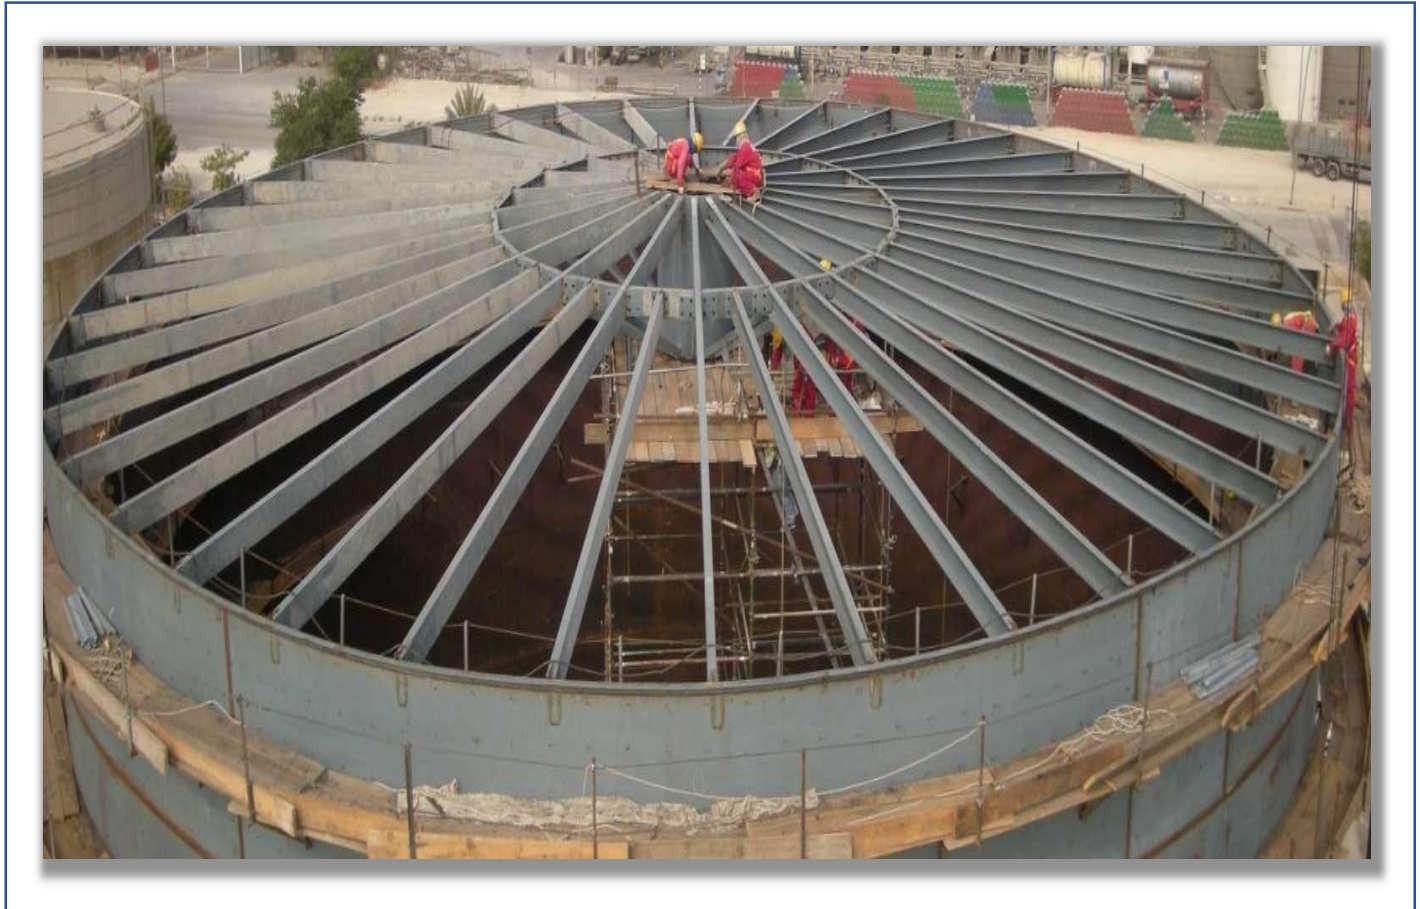

Vision

With the advancement in technology, we have been constantly improving ourselves to greater heights through innovation, value engineering and sustainable progressive growth and in the process provide our valuable customers a comprehensive engineering solution and better satisfaction.

Our Contracting Activities

- Mechanical, Electrical and Civil Contracting
- Piping works
- Aviation fuel piping
- Tank fabrication and field construction
- Structural fabrication and erection work
- Chilled water pipelines
- Firefighting piping
- Industrial plant construction works – mechanical related
- EPC contracting

WHAT WE ARE

- Sapients is one of the leading EPC contractors in the UAE.
- Sapients construct mechanical construction works to your needs
- All kinds of Industrial Piping, Tanks, Structural fabrication works
- Sapients execute projects for our customers with in-house capabilities, thereby giving best value to our Client. Client benefit from this approach since:
 - it gives better control of the entire project cycle
 - it has commercial advantages due to elimination of subcontractors' mark-ups

WHAT WE DO

- An expert in major infrastructure disciplines, Sapients has a well-focused and vibrant team of personnel and workforce having cross industry and international experience. Sapients advanced technological end to end capabilities in design, engineering, procurement, construction, commissioning and operation can provide services in core Infrastructure disciplines.
- Sapients has built a solid reputation based on expertise and experience. Sapients is proud of what we have achieved in a short span of time, through continuous efforts, innovative methods and above all, with safety and quality as our hallmark of operations. Sapients considers every project as a new challenge, an area of innovation to achieve excellence. We strive hard to execute the projects to the full satisfaction of all concerned. Sapients commits to adopt modern technologies and techniques in every sphere of our activities to exceed customer expectations.

BUILT ON TRUST

- Sapients is today one of the most trusted International companies in Engineering, Procurement, Contracting & Construction industry in UAE & India, with unparalleled records in Quality, Safety and Reliability. Sapients has been consistently considered as one of the best contractors with each client that we have worked for.

STRENGTHS

- Our Strength is our Dedicated Team of proficient Engineers, Technicians and welders.
- Our dedicated Team commitment to meet diverse need of our valuable clients
- Successful implementation of projects by continuous interacting and communicating intensively with our clients to ensure that they receive their requirements through us.

SAFETY FIRST, QUALITY PLUS & RELIABILITY FOREVER

- Sapients success is built on Safety, Quality and Reliability
- Sapients is following ISO 9001 :2015, ISO 14001:2015 and ISO 45001:2018 standards.
- Sapients Health and Safety programs are following to ISO 45001:2018 and Environment activities are following ISO 14001:2015 standard.

FOCUS AREAS

- Sapients mainly focus on Four industrial construction sectors:
- Aviation fuel piping,
- Oil and Gas
- Marine ship hull repair & maintenance
- District Cooling
- Petrochemical plant
- Industrial plants and
- Hygienic/Dairy/Pharmaceutical.

TECHNOLOGY AND SERVICES

- Third party Inspections
- Engineering solutions
- Project Management
- Reliability engineering and asset optimization
- Technical Inspection of infrastructure works.
- Pre - commissioning, commissioning and startup.

DOCUMENT REVIEW

- Document reviews in accordance with established QMS, QA/QC guidelines that are prepared based on ISO 9001-2015 & ISO 1400 series EMS standards:

MECHANICAL DISCIPLINE

- Pipeline inspections in accordance with the below standards:
- Aviation Fuel related standards API/EI-1540, 1560, 1585,1594, 1581, 1584, 1530, JIG2
- API 1104
- ASME B31.1, 31.2, 31.3, 31.8
- API-RP 1177
- We specialized in Aviation fuel piping, pipelines and tankfarms design and engineering in accordance with API/EI and JIG2 requirements.
- Tank design and inspections in accordance with API 650
- Piping inspections in accordance with ASME B31.3
- Firefighting installations inspections in accordance with applicable NFPA standards such as NFPA-11, 13, 16, 20, 30, etc...
- The design of process and services piping systems, fire protection systems (anything from codes and specifications to calculations among other works).
- The drafting of plans: Plot-Plan, Key Plan, Piping Layout, floor plans, isometric perspectives, sections and elevations, cuts, Tie-Ins.
- The development of Flexibility Analysis, bearing in mind primary or sustained loads, combination of load cases, pipe systems support and lastly, the design methods and both the selection and description of the calculation programs to be used

We carry out the design and development of the required control systems of a project (along with the process disciplines) to list, manage and control each of the loops that are required to ensure the adequate control of the plant.

- ♣ We have a very close collaboration with design engineers
- ♣ Technical assistance in scope procurement and supervision in the construction area of I&C
- ♣ Basic and detailed engineering in the area of processes within industrial plants.
- ♣ Hydraulic simulations for pipelines, carry out calculations of hydraulic pumps

CIVIL DISCIPLINE

We are a broad technical team highly experienced in the branch of civil discipline: However, we limit our civil services that related to pipelines and tank farm construction part only. We conduct inspections for trench excavations, backfilling, valve chamber construction, Non Destructive Road Crossing such as Horizontal Directional Drilling, Micro tunneling, Thrust Boring etc...

API 670 Inspections

Out qualified team can inspect your piping installations and provide detailed reports on the existing conditions with cost effective proposals for rectifications of defects/snags.

Corrosion Mapping

Concerns over tank shell wall corrosion can be investigated by high resolution corrosion mapping. Manual mapping techniques or automated shell wall crawlers can be employed to produce large amounts of data thereby allowing effective calculation of remaining life.

Non-Destructive Testing

Vacuum box, Magnetic Particle, Dye Penetrant or Ultrasonic inspection. All conventional NDT methods are always on hand whenever a tank inspection project is undertaken.

Tank Surveys & Calibration

Detailed laser surveys of tank settlement and tilt can be undertaken by our experienced technicians and assessed against the applicable code. The ability to perform tank calibrations and provide certification can also be conducted on request.

Tank Floor Inspection

Utilizing the latest in floor scanning technology our tank floor inspections can map almost any type of tank floor. Both topside and bottom side defects can be distinguished, whilst reporting thresholds can be altered through the click of a button, allowing the customer to picture possible repair strategies.

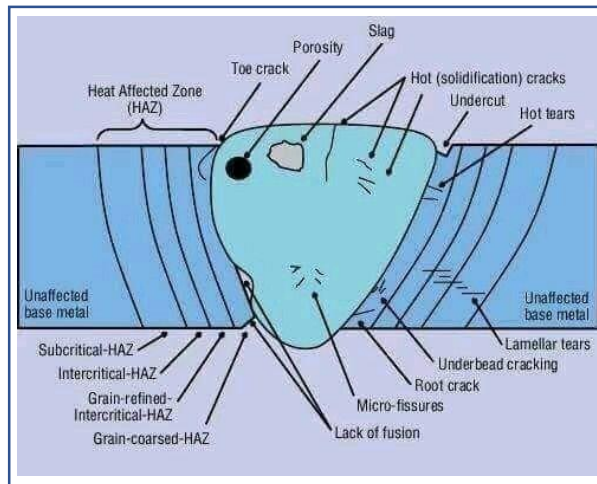

How can we help?

- All kind of piping, pipeline and equipment installation inspection and certifications
- Tank fabrication and erection inspections
- Tank farm testing and commissioning inspections
- Process inspections
- Routine inspections (API 653) for statutory or health & safety compliance
- Preparation of inspection scopes
- Development of tank maintenance schedules
- Determination of tank remaining life
- Extend inspection intervals
- Assessment on fitness for service
- Repair scope development and execution of repair scope

WELDING & NDT INSPECTIONS

All kinds of welding and NDT inspections will be carried out by our qualified welding inspectors

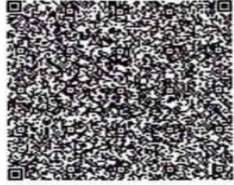

- Welding Procedure Specification – for all kind of material joining
- Procedure Qualification
- Welder Qualification
- Visual inspections
- PT
- MT
- UT
- RT

ONE STOP SOLUTION FOR ALL YOUR MECHANICAL ENGINEERING AND CONSTRUCTION NEEDS

At Sapients, you can find a team of Professional Mechanical Engineers, experienced in the Industrial, Aviation and Oil & Gas Engineering and Construction activities.

ISO certificate.

Quality Policy

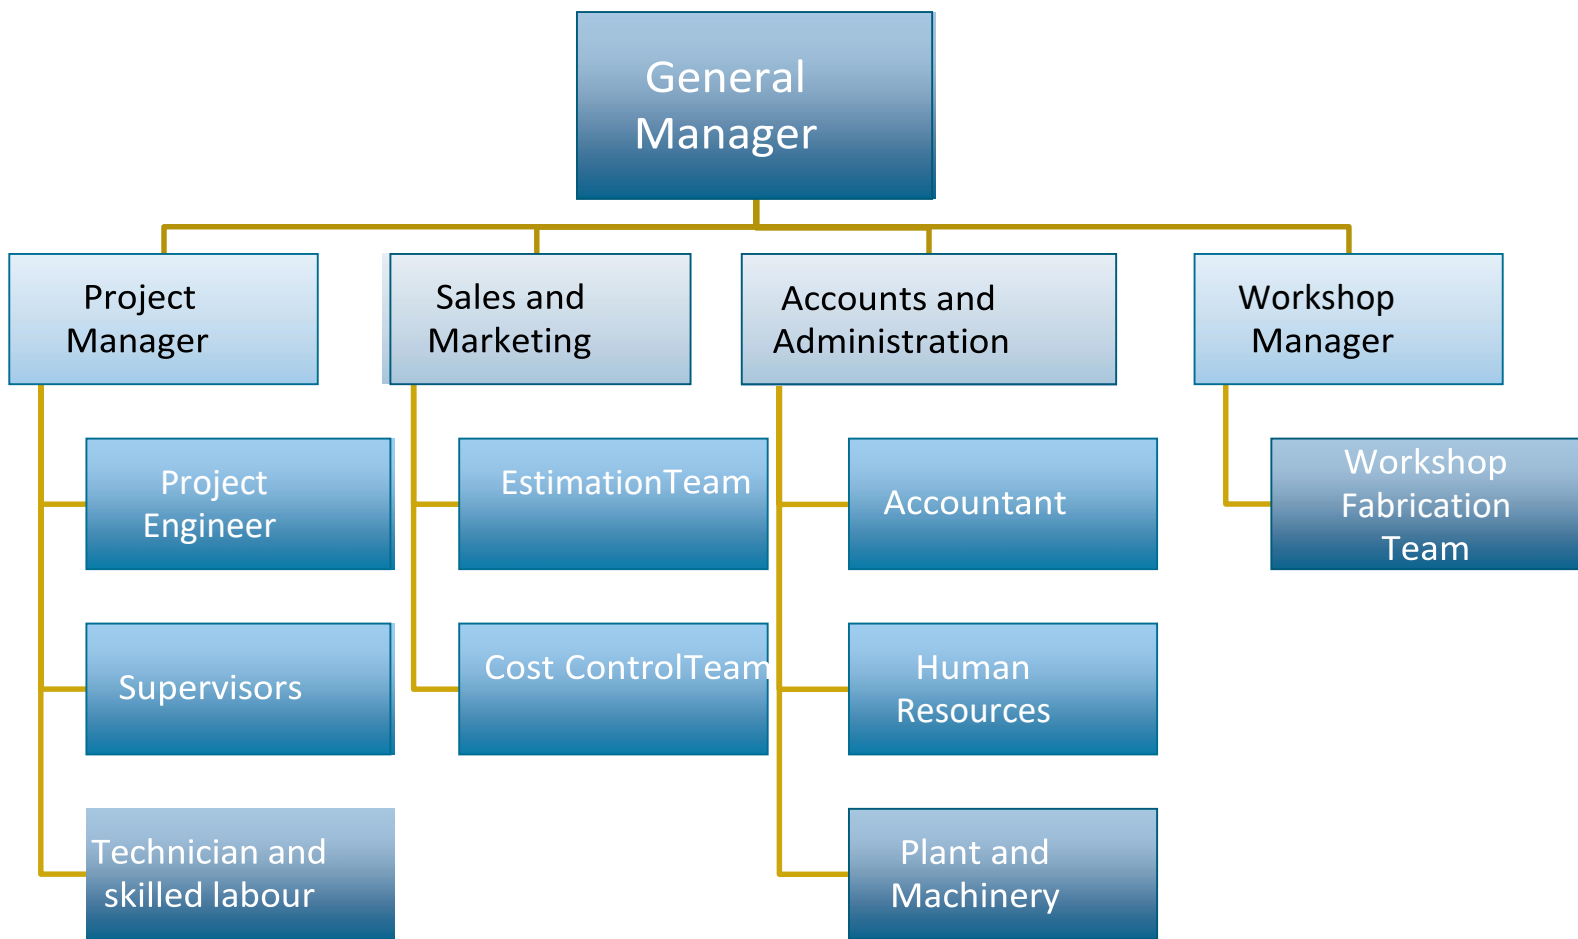

Our motto is 'Commitment to Quality and Safety at work always'.

- Sapients is committed to meet all the requirements of its clients and regulatory bodies at all times and at minimal cost.
- All the employees are responsible for the quality of work carried out on all provided Services and Performance.
- Know all the requirements and expectations from our clients
- Meet those requirements & expectations at all times
- Do everything right from the start to end.

Health, Safety and Environment

- Sapients consider the safety and health of her employees. the employees of Subcontractors under its control and the workers around the work area, are its greatest responsibility. This together with environmental protection is an integral part of Sapients philosophy for construction. Accordingly, Sapients has undertaken measures to minimize the risk from hazards in the workplace and to protect the natural environment as well as to safeguard the safety and health of all employees under Sapients responsibility.
- The policy of Sapients to achieve the aim of occupational safety, health and environmental protection is to develop and maintain a safe working environment and a system of work practices within the scope of legislative provisions provide necessary guidelines and training on principles of ergonomics, industrial hygiene, toxicology and environmental protection.
- Adequate personal protective equipment shall be provided to protect employees from hazards which cannot be otherwise eliminated and/or controlled.
- Regular HSE audits shall be performed to monitor the effectiveness of existing procedures, identify work practices or conditions that are potentially harmful to employees and issue corrective measures.
- HSE regulations shall be observed, HSE standards learned and HSE procedures used.

SAPIENTS – ORGANIZATION CHART

MAJOR PROJECTS HANDLED

1. FCC CATALYST PLANT – KIZAD ABU DHABI

Client: Grace FCC Catalysts Middle East

2. DUBAI AIR PORT ALTERNATE (DIESEL GENERATOR)POWER SYSTEM

Main Contractor: ALEMCO Electro Mechanical Contract

3. DWC (AL MAKTOUM AIRPORT)-HANGER PROJECT (FIRE FIGHTING PIPING WORK- Various sizes, maximum Size 24")

Client: Al- Arabia (Juma AL Majid)

4. INDIVIDUAL SECTION MACHINE SCOOP COOLING Pump installation and Stainless-Steel piping works at SAVERGLASS

Client: SAVER GLASS LLC, RAS-AL-KHAIMAH

5. Cosmetic production line (Hygienic) Storage Tanks, Sink and Piping Works at – Scitra

Client: COLEP SCITRA AEROSOLS

6. SHIP CONTAINER, PLATFORM, CANOPY AND HANDRAIL INSTALLATION WORKS AT SAIPEM.

Client: Felmar Technical Contracting

7. NAKHALI PALACE- LAKE PUMP ROOM PIPING WORKS (FABRICATION & PPC COATING)

Client: Desert Leisure LLC

8.GENERATOR INSTALLATION, EXHAUST PIPING, FUEL TANK WITH PIPING WORKS AT DOWNTOWN VEWS, DUBAI

Client: China State Construction Engineering Corporation Middle East LLC

9.GENERATOR, ATTENUATOR, DUCT INSTALLATION, EXHAUST PIPING, FUEL PIPING WORKS AT CREEK, DUBAI

Client: United Masters Electromechanical LLC

10. GENERATOR, EXHAUST PIPING, FUEL PIPING WORKS AT DUBAI OPERA

Client: EMT Electromechanical LLC

12. WATER CURTAIN SYSTEM FOR OFFICE BUILDING AT VOPAK HORIZON FUF AIRAH LIMITED (VHFL)

Client: Fotleia Middle East

SAPIENTS ASSETS

- WELDING MACHINES- SMAW -12
- WELDING MACHINE – TIG/GTAW -4
- WELDING MACHINE – MIG /GMAW – 1
- ORBIT WELDING MACHINE -2
- CUTTING SET -4
- VERTICAL DRILLING MACHINE
- ROLLING MACHINE
- GRINDERS (DIFFERENT TYPES) – LOT
- AIR COMPRESSOR – 1
- CHAIN HOISTS, D-SHACKLE
- PUG CUTTING MACHINE - 2
- PLASMA CUTTING SET -2
- FORKLIFT - 1
- Vehicle – 8 Nos
- AIR COMPRESSOR

CONCLUSION

- ABOVE ARE ONLY AN INTRODUCTION.
- SAPIENTS ARE HERE TO MAKE YOUR PROJECT A SUCCESS.
- ON SCHEDULE
- WITHIN YOUR BUDGET
- QUALITY EXCEEDING YOUR EXPECTATIONS
- COMMITTED TO INTERNATIONAL STANDARDS OF YOUR CHOICE
- WORK SAFE AND PROTECT ENVIRONMENT
