

Introducing: The Ant

**Go to the ant
you sluggard;
consider its
ways and be wise!
Proverbs 6:6**

A sluggard is defined as a lazy person. Kind of like this sloth!

Why do Ants have Antennae?

**They have them so they can
sniff out food and pick up
the scents of other ants.**

**That's how they can follow
each other in a straight line.**

Only 1 continent on the Earth has no ants! Which one is it?

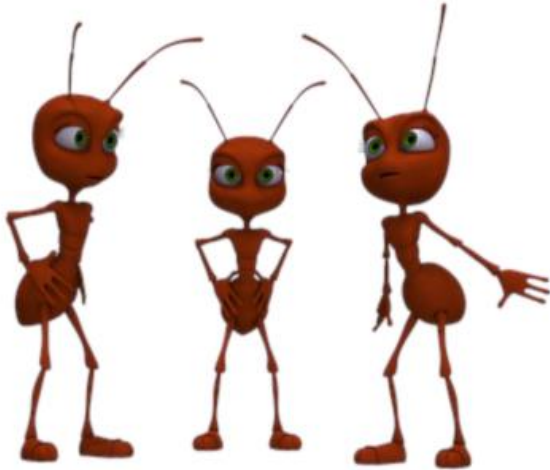

Decode the answer by using the chart below.

A-1 C-2 I-3 N-4 R-5 T-6

**Write an A above all spaces with a 1 underneath them. Write a
C above all spaces with a 2 underneath them and so on.**

1 4 6 1 5 2 6 3 2 1

Ants collect food when it is plentiful and share it among their colony.

Ants plan for the future by storing up all the leftovers from what they gather.

Ants protect their queen and their food supply from invading insects.

Ants sure are Hard Workers!

An ant can support up to 5,000 times its body weight!

Solve the Riddle:

If Goliath was an ant, what type of ant would he be?

Unscramble the following letters to solve the Riddle.

N T G A I

A _ _ _ _ _

Some Queen Ants can live up to 30 Years and have Millions of Babies during their lives!

Aren't you glad that they don't have to change diapers?

Did You Know?

Ants don't have ears. They hear by feeling vibrations through their feet.

Ants have 2 Stomachs. 1 for their food and 1 for food to share with others.

Ants don't have lungs. Oxygen enters their bodies through tiny holes in their sides.

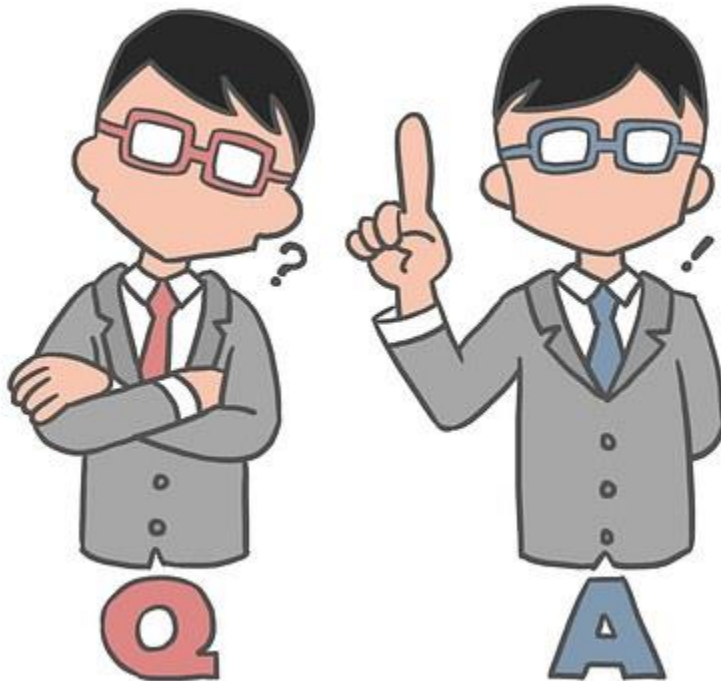

This Animal is No Friend of the Ant!

Unscramble the 2 words below, then combine those 2 words to discover an animal that ants are not very fond of.

The T N A E R E A T
