**Mares coming for live cover will have one week paid board. They must have a current coggins and health certificate if from out of state. We are not liable for any injury from live cover. **3. Collection service requires a 24-HOUR NOTICE. Stallion owner guarantees semen to be of adequate quality to ship and inseminate. We CANNOT SHIP ON SUNDAY. If you need a last minute shipment call and I will do my best to get it out same day.**

**4. In the event of the death of the stallion, or if he becomes unable to stand as a breeding stallion, as determined by a licensed veterinarian, the stallion owner may, at their discretion, offer a substitute stallion or frozen semen.**

**5. Stallion owner reserves the right to substitute frozen semen if available or ship during the next heat cycle in the event that the stallion is showing/competing during the time of the request. Show dates will be available upon request. Presley is scheduled to be home for the 2024 season.**

**6. Any mare to be bred under this contract must be healthy and in sound breeding condition and free from infection and disease. In the event the service is refused or the mare does not get in foal, the mare owner has return privileges and may substitute another approved mare for a period of 12 months from the original breeding date. Stallions have a Live Foal Guarantee (LFG). "Live Foal" meaning that a foal is born viable and survives the first 30 days. Mare owner shall be permitted to rebreed the mare or substitute another mare for a period of 12 months from the date that the mare lost the foal or during the following breeding season, but will have to pay collection and shipping fees (\$250 plus extra for Canada health export papers if applicable). There may also be an additional handling fee if the mare is sold to another party and needs more semen to be shipped (current shipping and collection rates would then apply).**

**7. Stallion owner must be notified of mare's pregnancy status within 30 days of the mare's last breeding date. If this condition is not met, Live Foal Guarantee (LFG) is null and void. Mare owner agrees to provide adequate feed, shelter and care, plus vaccinations of rhinopneumonitis at 5, 7 and 9 months of gestation to mare while she is pregnant. Showing, shipping, stressful living conditions or campaigning mare may also void this contract.**

**8. Mare owner must sign a contract. Mare owner is liable for all collection and shipping fees after the first collection and shipping for each breeding. Foal registration papers (Breeding Certificate) will not be signed until owner has paid all outstanding fees. Please also email or attach a copy of the Mare's registration papers to us.**

9. This agreement constitutes the entire agreement of the parties.

10. This breeding contract is valid for breeding anytime in the 2024 season and 2025 season
