

# I.S. PRODUCTIONS LLC

**W**hile mastering his gift with instruments, Frank found a flair for writing, arranging, and producing music as well. With years of practice and perfecting his passion, Frank's drive and determination has added composing music to his list of accomplishments. He now produces his own brand of music that is soothing, uplifting, and motivational to the listener.

Frank Thompson Jr., decided to name his record label "IS" because he believes music should be inspirational and Spirit-filled. Regardless of where music comes from, what genre, country, gender, ethnic group, cultural background, or language it is written or sung in, it should move you mentally and physically. Too many times today we try to classify music, trying to fit it in a box and put a label on it. Many try to classify music as "Christian/Gospel" if it speaks of God or the "Devil's Music" if it doesn't specifically mention God. However, Frank believes that all music should move and lift you emotionally if it came from the writer's heart it should be *Inspirational and Spirit-Filled*, hence the reason for naming his production company **IS**.

*"I thank God for all of the many gifts and blessings He has bestowed upon me. I would not be who I am today if it was not for Him allowing my hands, feet and mind to reach out and to step out and explore the many facets of life that He has allowed me."*

I pray that these projects will Bless and soothe your soul. As King Saul called for David to soothe him with the harp-when he was vexed, may this equally soothe your heart and mind. My God Bless you and keep you."

- Frank Thompson
