HAVE AN EYEDAEA THAT YOU WANT BROUGHT TO LIFE?

We can customeyez any design you have seen in this catalog. Want something that's red to be blue instead? No problem! Want a fish pupil instead of a slit pupil? I'm on it! Want to add font/logos to an existing design, I can do that too! Even if you want an existing eye to have a white outline to the pupil instead of red, I'm all about getting creative and making exactly what you have in mind! Another thing to remember is that any round design you see here can be made in the Madtown shape also! Contact us on social media, via email, or the website, or phone and we will start planning accordingly!

TO ORDER EYES IN THIS CATALOG, USE THE [EYE ORDER PAGE](#). Please fill out ALL FIELDS including the eye number, backing, size, and quantity. Once submitted I will get an email with your order. You DO NOT need to log in to Google to submit the order. Pearl is the backing most often used, it's chrome with an incredible reflective property at low light. If a backing is not specified, pearl will be used for the order. Don't hesitate to call us if you have any questions.

Sincerely,
 Matt Pelletier
