If your player works well, do not upgrade, neither update it. Just leave updates at "Auto"

How to update/upgrade LibreELEC.

1. Go to main screen and SYSTEM. If you have LibreELEC tab, open it. If you don't – go to P 7

2. Go to updates and change Automatic Updates to "manual". Then go to "Update channel".

System	Updates	
Updates	Automatic Updates	manual
Network	Submit Statistics	
	Show Update Notifications	\odot
Connections	Show Custom Channels	\Box
Bluetooth	Update Channel	LibreELEC-8.2
Services	Available Versions	0
About		
LibreELEC	LibreELEC can be configured for automatic or manual updates. Automatic update stable release candidates. Automatic update self-disables on beta and developm	es are available on stable releases and ent builds

3. Go to highest one and click. (Highest version today is 9.2)

If you like to try other skins, go to "Get more..." and install more skins. Attention: You may loose some settings after change.

Sometimes after upgrade, you may be enforced to reinstall your skin.
